A. P. MACDONNELL,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th October 1884.—In supersession of the notification dated the 5th April 1882, published at page 342, Part I of the *Calcutta Gazette* of the 12th idem, and in the exercise of the powers vested in the Local Government by section 20 of the Licensed Warehouse and Fire Brigade Act IV (B.C.) of 1883, the Lieutenant-Governor sanctions the following bye-laws for the regulation of the Fire Brigade :—

1. The Commissioner of Police, Calcutta, shall, subject to the control of the Local Government, appoint or remove any member or officer of the Fire Brigade.

2. The following police officers shall be *ex-officio* members of the Fire Brigade :—

(a)—The Superintendent of the Reserve Force, who shall be designated also Superintendent of the Fire Brigade.

(b)—The Inspector in charge of the Howrah Reserve Force.

(c)—All town sergeants and constables of the Reserve Force.

3. A special allowance of Rs. 5 shall be payable to each sergeant or European constable present at a fire; also one rupee shall be payable to each native constable who renders active assistance on the occasion of a fire.

4. On or before the month of February in each year, the Commissioner of Police shall prepare, in such form as may be directed by the Lieutenant-Governor, an estimate of the cost of the Fire-Brigade for the year commencing on the 1st of April next ensuing, and shall forward the same to the Municipal Corporations of Calcutta and its Suburbs and Howrah for transmission to Government, with such remarks as they shall think fit to record for the approval and sanction of the Lieutenant-Governor.

5. The estimate shall show the number, constitution, and salaries of the members of the Fire Brigade, and shall also provide for the purchase of such fire engines, fire-escapes, horses, oxen, accoutrements, tools and implements, for the supply of uniform to members of the Brigade, and for such other expenditure as may be necessary for the equipment and efficiency of the Brigade.

6. The estimate shall also make needful provision for building, providing or hiring places for the keeping of the force, engines, horses, and appurtenances. When such estimate has been approved and sanctioned by the Lieutenant-Governor, it shall be competent to the Commissioner of Police to meet all expenditure within the limits of the said estimate.

7. The stations of the Fire Brigade shall be as follows :—

(a)—Police Office, Lall Bazar.

(b)—Tallah Municipal Pumping Station, Cossipore, Suburbs.

(c)—Palmer's Bridge. Pumping Station (Ballisghatta).

(d)—Bhowanipore Police Station.

(e)—Watgunge Police Station.

(f)—Municipal Office, Howrah.

- (g)—Golabari Police Station, Howrah.
 (h)—Sibpore Police Station, Howrah.
 (i)—Howrah Police-station.

Steam-engines shall be kept at Lall Bazar, and at such other stations as it may be possible to provide for, and hand-engines at the suburban stations. The Commissioner of Police shall be at liberty to make such alterations in the location of the said stations and engines as may at any time seem to him expedient.

8. The Commissioner of Police may, at his discretion, order the payment of a gratuity of any sum not exceeding Rs. 100 to any person who shall give early notice of the outbreak of a serious fire.

Gratuities for notice of fires.

9. The Superintendent of the Fire Brigade and the Chief Engineer shall, from time to time, inspect all members of the Fire Brigade, and shall satisfy themselves that the engines, hose, and other appur-

Training of Brigade.

tenances are in good order, and that the members of the Brigade are thoroughly conversant with the manner of using them. In respect of the Fire Brigade at Howrah, the above duties shall be performed by the Inspector in charge of the Howrah Reserve Force.

10. All members of the Brigade shall reside at such places as may be appointed: they shall not absent themselves without permission from superior authority. They shall wear such uniform as may be prescribed. They shall obey all orders from superior officers.

Discipline and good conduct of members.

They shall not be at liberty to withdraw from their duties without written permission from the Commissioner of Police, or without giving to the Commissioner of Police two months' notice of their intention to withdraw.

11. The Commissioner of Police may fine any member of the Brigade who is remiss or negligent in the discharge of his duties, or who infringes any of these bye-laws, in any sum not exceeding one week's pay.

Power of Commissioner to fine.

12. All members of the Fire Brigade shall, for the purposes of pension, be members of the Calcutta Police Force; shall contribute to the Superannuation Fund; and shall be eligible to pension or gratuity under the rules which apply to the members of the Calcutta Police Force: provided that no *ex-officio* member of the Brigade, who is also a member of the Police Force, shall be entitled to pension or gratuity for service in connection with the Brigade.

When part of an officer's service has been paid from the Fire Brigade Fund and part from a Department, service in which qualifies for pension under the Civil Pension Code, the pension will be paid according to the rule of proportion, in accordance with the provisions contained in section 40, rule 1 of the Pension Code.

Due provision will be made in the budget estimates of the Fund for pensions and gratuities.

13. On the alarm of fire at the Central Fire Station, every member of the Brigade, except those whose business it is to harness the horses and prepare the engines, will muster in the yard in single file.

For speedy attendance at fires of members, engines, &c.

14. The chief officer of the Brigade will then determine what engines, hose and other implements shall be used, having regard to the locality, distance, and appearance of the fire, and will tell off the requisite number of men, and make arrangements for their speedy conveyance to the spot.

15. He may also, when necessary, communicate with the Engineer in charge of the Municipal Pumping-stations in order to obtain pressure of water; and in case of a fire, occurring near the river bank, he will call on the officer in charge of the Port Commissioner's fire-engines to render such assistance as may be possible.

16. On arriving at the scene of the fire, it will be the duty of the chief officer of the Brigade to ascertain the extent of the fire, to see the engines are placed in proper positions, and that every member of the Brigade present has his own duty assigned to him. No member of the Brigade shall withdraw from a fire without permission from the senior officer. The senior officer may call upon the local police to assist the brigade, and the local police shall obey all orders so issued.

17. On receiving notice of a fire at an out-station, the officer in charge of such station shall at once proceed to the spot with his engine and Brigade, and shall take such measures for extinguishing the fire as may be practicable. Pending the arrival of the Superintendent of the Fire Brigade, the senior police officer present shall direct the operations of the Brigade.

Attendance from out-stations.

18. The Commissioner of Police may, at his discretion, direct the attendance of the Brigade, or any portion of it, with the necessary engines, hoses, &c., at any fire occurring beyond the limits of the town and suburbs, and within a radius of six miles from the Calcutta Police Office. It shall be competent to the said Commissioner to require any private individual, who requires the services of the Brigade at any spot beyond such limits, and within the above radius, to pay such fees for the attendance of the Brigade as will provide for the payment of special allowances due to members of the Brigade, and for general wear and tear of engines, hoses, horses, &c., and for such other charges as he may deem proper.

19. The Deputy Commissioner of Police shall be competent to perform any of the duties assigned to the Commissioner of Police under these bye-laws.

General rule.

COLMAN MACAULAY,
 Secretary to the Govt. of Bengal.

NOTIFICATION.

The 9th October 1884.—In the exercise of the power vested in the Local Government by section 84, Act IV (B.C.) of 1883 (the Licensed Warehouse and Fire Brigade Act), the Lieutenant-Governor is pleased to declare that 10 maunds of jute, cotton, hemp or flax is a "small quantity" within the meaning of the said section of the Act, and that the provisions of the said Act shall not apply to any buildings or places wherein any quantity of jute, cotton, hemp or flax not exceeding 10 maunds, is deposited for the purpose of any manufacture or retail trade.

IRRIGATION.

The 9th September 1884.

No. 336.—Notification.—It is hereby notified for public information that the Lieutenant-Governor of Bengal proposes, under the powers conferred on him by sections XI and XII of Act V (B.C.) of 1864 (The Canals Act), to pass the rules, of which a draft is published below, for the purpose of carrying out the provisions of the said Act in regard to the Eastern Canal Route and the Outer Boat Routes as defined in this Department's Notification No. 801 of the 12th August 1884.

1. Whenever mooring posts may have been put up by the Supervisor, vessels shall be made fast by the head and stern along the banks to such posts, and shall not be moored in any other manner.

2. The Supervisor may by notification prohibit vessels of any particular dimensions from passing through any particular line of navigation, and also prohibit the dropping of anchors or the putting up of bamboos or luggies in any part of the canals or banks.

3. As the water falls, the head and stern ropes of moored vessels must be loosened and the vessels gradually pushed towards the centre of the canal; when the flood comes in these two ropes must be gradually pulled in, and the vessels kept as close to the bank as possible.

4. Vessels whilst loading or unloading in the canals will be allowed to use ladders but the ladders must be gradually taken in as the water rises.

5. Only one vessel shall be allowed to make fast along and in line with the canal's banks, and no vessel shall be made fast, or be placed outside of vessels so secured. No vessel shall be placed in such a position as to endanger the safety of other vessels, or obstruct the passage of other vessels.

6. Vessels passing through the canals shall keep in separate lines: empty vessels keeping close to the bank, and those that are laden in the centre.

7. In portions of the canals where only one towing path exists, vessels shall moor on the off side, and the towing-path side shall always be kept clear. (The towing-path side shall be used by vessels going against the tide, and by no others.)

8. In order to avoid collision and confusion, vessels waiting for a favourable tide at the junction of two or more rivers shall be moored at a distance of not less than 1,000 feet from the point of junction.

9. No person shall place obstructions on the canal banks or towing-paths, so as to impede a free passage along them, or cause injury to them, or shall commit a nuisance, or deposit filth of any sort on the banks or in the canals, nor do any act to cause injury to the canal works.

10. Every person either personally, or by his servant, infringing any of the above rules, numbered from 1 to 8, shall be liable under section XI of the Canals Act to a fine not exceeding Rs. 50 for any one infringement; or to a fine not exceeding five rupees a day for any continued infringement.

11. At the instance of the Supervisor of Navigation, any Magistrate who imposes a fine under section XI or XVI of the Act may award any portion of such fine to the

12. Any person who wilfully or negligently allows a vessel to sink in the canals shall be liable to a fine not exceeding Rs. 50.

13. In every case of wreck caused by negligence or otherwise, the Supervisor and his subordinates will give every assistance in removing the same.

14. A notice shall be affixed on such wreck, when recovered, calling on those concerned to pay to the Supervisor any fine which may have been adjudged, as well as the expenses incurred in the recovery or removal of the wreck; and intimating that if the sum be not paid within 15 days of the date of notice, the boat and its contents, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section IX of the Act.

15. Every Canal Officer is authorized to remove any vessel, anchor, pole, or other thing which he may find in a position which is in contravention of these rules, and to deal with it in such a manner as may be necessary to give effect to the rules.

16. Whenever any laden vessel is seized by a Canal Officer, it shall be the duty of the Supervisor to give immediate notice of the same to the owner, or his agent, and to require the removal of the cargo without delay; intimating at the same time that the owner will be required to pay all expenses necessary for the proper custody and storage of the same.

17. If the Supervisor be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel seized under the Canal's Act, he shall notify the seizure by advertisement in his office and in one or more of the Calcutta newspapers or advertisement papers. Such notices shall call upon the owner to cause the immediate removal of the cargo, and to pay any necessary expenses incurred in providing for its proper custody and storage.

18. The Supervisor may incur whatever expense he may think necessary for the proper custody and storage of the cargo of any vessel seized under the Canal's Act, and if the cargo be not removed within 10 days from the date of seizure, he may sell the same at public auction to the highest bidder, after giving 15 days' notice of the same by advertisement in one or more of the Calcutta newspapers, or advertisement papers, and affixed in his office.

19. The money realized at such a sale shall be applied, first, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, shall be held in deposit to be paid to the owner of the said cargo on his applying for the same.

20. The Canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them; but in the event of any sudden emergency, the Canals may be closed at any time without prior notice, and no claims shall be made in such case by owners of vessels or others for compensation on account of detention.

21. By the term Canal Officer in the foregoing rules is meant all officers of the Engineer or Upper Subordinate establishments of the Public Works Department employed on the Eastern Canal or Outer Boat Routes.

The proposed rules will supersede the rules now in force for the Navigable Channels from Kautestollah to Khoulna, passed by Notification No. 281, dated the 15th August 1865, and published at page 1349 of the *Calcutta Gazette* dated 16th August 1865.

NOTIFICATION.

The 15th October 1884.—Under the last clause of section 144 of Act X of 1882, the Code of Criminal Procedure, the Lieutenant-Governor hereby directs that the following orders, issued by the Magistrate of the 24-Pergunnahs, under the said section of the Act, shall remain in force until further notice.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

ORDER UNDER SECTION 144, CODE OF CRIMINAL PROCEDURE.

To—HAR DIAL MARWARI,

No. 46, Garden Reach.

WHEREAS it has been made to appear to me that you are in possession of a part of the premises known as No. 46, Garden Reach, and whereas I have this day visited your stores of kerosine in the said premises at Garden Reach, and I found that on the premises occupied by you was stored a large quantity of kerosine oil estimated at about 150,000 cases; that this kerosine oil was stored in such a manner as to be highly dangerous to human life; that it was close to the bank of the river, and in case of fire would evidently flow into the river, and cause great risk to the shipping in the port, and that a soldering shed stood immediately on the bank of the river and within about 40 feet of a large store of kerosine oil, the intermediate space being occupied by scattered boxes of oil.

In order to prevent danger to human life and safety, I hereby direct you to take the following order with your property and the land in your occupation :—

(1). You shall forthwith cease to store any kerosine oil within 100 feet of the top of the river bank, and the oil which is now within that distance from the river bank shall be removed within 15 days from the date of service of this notice.

(2). You shall not allow cases of oil or boxes, or straw or matting, or wood to lie between the soldering shed and the stores of kerosine oil.

(3). You shall not store oil within 10 feet of the ditch dug between the land occupied by you and that which is used by Messrs. Macgregor and Co., or within 25 feet of the boundary dividing No. 46, Garden Reach, from No. 45, and the oil which is now within the above distance from the respective boundaries shall be removed within 15 days.

(4). You shall fill up or dam up strongly every ditch or drain leading from the land in your possession to the river, and you shall raise a secure embankment not less than two feet high on the riverside, and shall also raise side embankments of an equal height. This shall be done within 15 days.

(5). You shall not allow any person on your stores to smoke, and you shall not allow any person to light fires within 100 feet of your stores.

Attest,
The 15th September 1884.

C. C. STEVENS,
Magistrate, 24-Pergunnahs.

ORDER UNDER SECTION 144, CODE OF CRIMINAL PROCEDURE.

To—ISHAN CHUNDER DEY & Co.,

No. 46, Garden Reach Road.

WHEREAS it appears to me that you are in possession of a part of the premises known as No. 46, Garden Reach, and whereas I have this day visited your stores of kerosine in the said premises, and have found that in the said store was stored a large quantity of kerosine oil estimated at about 20,000 cases; that this kerosine oil was stored in such a manner as to be highly dangerous to human life; that it was close to the river, and in case of fire would evidently flow into the river and cause great risk to the shipping in the port, and that soldering sheds stood immediately on the bank of the river and close to your stores of oil.

In order to prevent danger to human life and safety, I hereby direct you to take the following order with your property and the land in your occupation.

(1). You shall forthwith cease to store any kerosine oil within 100 feet of the top of the river bank, and the oil which is now within that distance from the river bank shall be removed within 15 days from the date of service of this notice.

(2). You shall not allow cases of oil or boxes, or straw or matting, or wood to lie between the soldering sheds and the stores of kerosine oil.

(3). You shall fill up or dam up strongly every ditch or drain leading from the land in your possession to the river, and you shall raise a secure embankment not less than two feet high on the riverside: this shall be done within 15 days.

(4). You shall not allow any person in your stores to smoke, and you shall not allow any person to light fires within 100 feet from your stores.

ALIPORE,
The 15th September 1884.

C. C. STEVENS,
Magistrate, 24-Pergunnahs.

ORDER UNDER SECTION 144, CRIMINAL PROCEDURE CODE.

To—ISHAN CHUNDER DEY & Co.,

No. 44, Garden Reach.

WHEREAS it has been made to appear to me that you are in possession of the premises known as No. 44, Garden Reach, and whereas I have inspected the said premises this day, and have found that a large quantity of kerosine oil, estimated at 150,000 cases, is stored therein in such a manner as to cause danger to human life and safety.

I hereby direct that you take the following order with the property in your possession and the land occupied by you.

(1). You shall forthwith cease to store any kerosine oil within 100 feet of the top of the river bank, and the oil which is now within that distance from the river bank shall be removed within 15 days from the date of service of this notice.

(2). You shall not store kerosine oil within 25 feet of the boundary dividing No. 45, Garden Reach, from No. 44, and the oil which is now within that distance from the said boundary shall be removed within 15 days from the date of service of this notice.

(3). You shall fill up or dam up securely every ditch or drain leading from the land in your possession to the river, and you shall raise an embankment not less than two feet high on the riverside.

(4). You shall not allow any person in your stores to smoke, and you shall not allow any person to light fires within 100 feet of your stores.

The 15th September 1884.

C. C. STEVENS,
Magistrate, 24-Pergunnahs.

ORDER UNDER SECTION 144, CRIMINAL PROCEDURE CODE.

To—RAJENDRA NATH PAL,

No. 45, Garden Reach.

WHEREAS it has been made to appear to me that you are in possession of the premises known as No. 45, Garden Reach, and that a portion of the same is used for stacking straw, and that by reason of the inflammability of the said straw there is cause to apprehend danger to human life.

I hereby direct that you take the following order with the property in your possession:—

(1). The broken down portion of the wall between Nos. 44 and 45, Garden Reach, shall be repaired within 15 days.

(2). No stack of straw shall be built within 25 feet of either the boundary separating No. 44 from No. 45, or No. 45 from No. 46.

(3). No smoking or fire shall be allowed within 50 feet from any stack of straw or other inflammable substances.

The 15th September 1884.

C. C. STEVENS,
Magistrate, 24-Pergunnahs.

ORDER UNDER SECTION 144, CRIMINAL PROCEDURE CODE.

MESSRS. MACGREGOR AND CO.,

No. 46, Garden Reach.

WHEREAS it has been made to appear to me that you are in possession of a part of the premises known as No. 46, Garden Reach Road, and whereas I have ascertained by personal inspection that you have caused to be dug a ditch or trench dividing the said portion in your possession from the portion in the possession of Har Dyal-Marwari and others, and used by them for storing kerosine oil, and whereas the said trench is open towards the river Hooghly, so that in the event of oil being set free from the cases it will pass into the river and cause danger to the shipping and to human lives.

I hereby direct you to dam securely the mouth of the said trench within two days from service of this notice.

C. C. STEVENS,
Magistrate, 24-Pergunnahs.

The 15th September 1884.

NOTIFICATION.

The 16th October 1884.—Whereas a notification dated the 21st July 1884, under section 10, Act V (B.C.) of 1876, was published at page 806, Part 1 of the *Calcutta Gazette* of the 30th idem, declaring the Lieutenant-Governor's intention to revise the boundaries of the Burdwan Municipality so as to exclude from its limits the village of Pakirpore, and whereas no objection has been raised to the proposed measure, it is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Burdwan Municipality, made at a meeting, and in exercise of the powers conferred on him by section 9 of Act III (B.C.) of 1884, the Lieutenant-Governor declares that, for the purposes of the said Act, the village of Pakirpore shall be excluded from the limits of the Burdwan Municipality with effect from the 1st proximo. The revised boundaries of the municipality will be as follows:—

The north, east and west boundaries of the municipality will be the same as specified in the notification dated the 16th April 1867, published at page 676 of the *Calcutta Gazette* of the 24th idem, in Government letter No. 2480, dated 17th April 1867.

It will be bounded on the south by a line following the Damooda embankment from Khurgessar to Edilpore and Baraset road, thence following northward the Baraset and Edilpore road up to Eden Canal, thence south-eastward along the Eden Canal to Damooda embankment near Garbasti, then along Damooda embankment down to Kalitolla road, crossing thence along Kalitolla road up to the confines of Raghonathpore, thence along the southern boundaries of Raghonathpore, Khojanar Bere, Jagger Bere and Baro Nilpore to Galuckbagan, thence along road on north of the same course down to Baboorbagan, thence north-west to the Grand Trunk road, leaving Baboorbagan and Mollahbagan indigo factory on the east.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 19th October 1884.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in the Local Government by section 8, Act III (B.C.) of 1884, and in accordance with the recommendation of the Local Authorities, to declare the town of Julpigoree, in the district of Julpigoree, to be a municipality, unless good reason be shown to the contrary within six weeks from the date of the publication of this notification.

The boundaries of the said town of Julpigoree are as follows:—

On the North.—A line drawn due east from the ditch on the north of the Bykuntpore Zemindar's house to the bank of the Teesta river, and west in a straight line to a point on the bank of the river Kuria, and thence along the western bank of the Kuria until it reaches a point about 400 yards west of the old jail, and thence to the Siligoree road.

On the South.—A line drawn west from the Teesta river, along the new Teesta-Pandapara road, till it cuts the western boundary.

On the East.—The Teesta river.

On the West.—A line drawn from that point where the northern boundary touches the Siligoree road, passing outside the mahout's village, including Shere Mahomed's village, and passing to the east of Charkotto's house until it meets the railway line at a point about 440 yards above the Titalya road, and thence passing along the western boundary of the railway line till it meets the enclosure of the railway station, and thence passing outside the boundaries of that portion of the railway station premises lying to the west of the railway line till it again meets the railway line, and thence following the western boundary of the railway line till it cuts the southern boundary of the proposed municipality.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 13th October 1884.—It is hereby notified for general information that, in exercise of the power conferred on him by section 39 of the Cess Act IX (B.O.) of 1880, the Lieutenant-Governor has determined that the rate at which the Public Works cess shall be levied for the year which commenced on the 1st October 1884, in all the districts to which the said Act has been extended, shall be one-half of an anna in the rupee on the annual value of lands, and on the annual net profits from mines, quarries, tramways, railways, and other immovable property, ascertained respectively as in the Act prescribed.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 20th October 1884.—The following Notice to Mariners is published for general information :—

A. P. MACDONNELL,
Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 60.)

AFRICA—EAST COAST.

GULF OF ADEN.

Buoyage of the reefs at the entrance to Zeyla.

With reference to Notice to Mariners No. 57, issued from this Department, 11th October 1884, relative to the intended buoyage of the reefs at the entrance to Zeyla, information has been received announcing that the buoys were laid down on the 14th September 1884 :—

EFAT SHOAL BUOY—A red iron conical buoy has been moored in $7\frac{1}{2}$ fathoms, at low water ordinary spring tides, at the East end of the shoal off Efât Island, and the following bearings are given :—

Centre of Zeyla town	S 24° W.
Right extreme of Sadalden Island	S 55° W.
Right extreme of Efât Island	N 71° W.

FILFIL SHOAL BUOY—A red iron conical buoy has been laid in 6 fathoms, at low water ordinary spring tides, at the West end of Filfil shoal, with :—

Centre of Zeyla town	S 48° W.
Right extreme of Sadalden Island	N 88° W.
Right extreme of Efât Island	N 53° W.

CHANNEL REEF BUOY—An iron conical buoy with black and white vertical stripes has been laid down on the Channel reef in 4 fathoms, at low water ordinary spring tides, in the following position :—

Centre of Zeyla town	S 36° W.
Right extreme of Sadalden Island	S 81° W.
Right extreme of Efât Island	N 53° W.

There is a small white beacon like a mosque just inside the North end of Efât Island.

Directions.—Vessels bound for Zeyla can either make Efât shoal buoy or the Filfil shoal buoy, and if the weather is clear the town will be seen before getting up to the buoys. Efât shoal buoy should be passed to the Eastward, and Filfil shoal buoy to the Westward, giving Channel reef buoy a berth of half a mile on either side. The directions given in the Gulf of Aden Pilot will then suffice. If the Channel reef buoy be washed away, great care is necessary in passing the reef, as it is difficult to distinguish and steep-to, and seems to be of larger dimensions than those given in the Gulf of Aden Pilot.

The Bearings are Magnetic.

NOTIFICATION.

The 27th October 1884.—The following report by the Deputy Conservator of the Port of Calcutta, on the Survey of the Mutlah River, is published for general information.

A. P. MacDONNELL,
Secretary to the Govt. of Bengal.

MUTLAH SURVEY, 1883-84.

Dated Calcutta, the 25th June 1884.

From—Lieutenant E. W. Peckey, Deputy Conservator of the Port,
To—The Vice-Chairman to the Port Commissioners.

In accordance with your instructions in September last, I now have the honour to report the completion of the Mutlah survey, and beg to submit herewith the marginally noted charts of that river. These charts have all been constructed on the most convenient scale for reproduction by photo-zincography, having due regard to the requirements of seamen using the same for navigation purposes.

- (a) Port Canning, scale 10 inches=1 statute mile.
- (b) Port Canning to Hareabanga, scale 2.75 inches=1 statute mile, including enclosing plan of Port Canning on 6 inches to one statute mile.
- (c) Chota Hareabanga to Cattalee, on scale of 2.4 inches to one statute mile.
- (d) Cattalee to Halliday's Island, scale 1.2 inch=1 statute mile.
- (e) Halliday's Island to Mutlah light-vessel, scale 1 inch=nautical mile.

statute mile; with a preliminary sheet between Port Canning and Edoe Reach, on a scale of six inches to the statute mile.

3. Immediately after receiving definite orders that the survey of the Mutlah was to be undertaken, the *Clyde* was brought forward for commission, and after docking and undergoing necessary repairs, she left Calcutta on the 9th November, and, passing through the Sunderbunds, arrived in the Cattalee on the 11th.

Officers of "Clyde."

- Mr. H. A. Jones,
- " H. R. Wood,
- " W. M. Unghart.

4. Prior to this, having received your instruction that the Commissioners wished a survey of Port Canning as far down as Edoe Creek, I took the small steamer *Cuckoo*, and made a preliminary survey of that locality. A tide pole was erected on No. 5 Jetty, a base of 2,030 feet was measured along the railway line, and from it a series of triangles was taken to Edoe, and the waterway between Canning and Edoe was thoroughly examined in sections, on a scale of 6 inches to the statute mile. Artificial survey marks were then left at Edoe and Dabo-Ghur-Khallee to connect the up-coming survey, and the *Cuckoo* returned to Calcutta.

5. Immediately after the *Clyde* arrived in the Cattalee, a tidepole was erected at Rodgers' Point, but the strong tides and eddies made it such an unsuitable place that after losing one or two tidepoles I considered it advisable to select another site. A very nice spot was picked up just under Biddah Point, and the tidepole erected there remained standing until after the survey was completed, when it was broken by a passing boat. Tide-watchers were arranged for at Canning, Cattalee, and Halliday's Island, and in between these places as the survey progressed, supplementary tidepoles were used. When soundings were being taken, these supplementary gauges were compared with the standard poles. I had great difficulty in keeping good and reliable records at Canning, as I was obliged to discharge all the tide-watchers, except two, for falsifying the night tides; but I am glad to say that I got enough correct data to make up a fair estimate for tide results.

6. When these arrangements were completed, the *Clyde* proceeded to the southward to pick up a base line, and after much difficulty the only suitable place was on the south shore just below the Bouia River, and even then it had to be measured below the water line.

7. An accurate base of 7,230 feet was obtained, with a third point on the opposite shore, and from it was deduced the whole of the triangulation of the river. Two check bases were taken between the main base and Port Canning, and when closing in on the small base, along the railway line in Canning Town, it agreed to within a foot. The erecting of the triangulation stations and sounding marks was a most trying and difficult job, partly on account of the high tides, which during springs rose much above the foreshore and ran into the jungle, partly caused by the dense jungle we were obliged to enter, but principally by the difficulty experienced in finding suitable spots in which to erect the theodolite on anything like firm ground. This took a much longer time in accomplishing than I anticipated, and when it was completed, we had a gale of wind from the south-east, which blew half the stations down giving us all the trouble of re-erecting them. On account of these delays, soundings were not commenced until the 7th December, and when the fine weather fairly set in, we experienced daily the usual very hazy atmosphere until about noon, so that half the day was lost in waiting for it to clear up sufficiently to see the sounding stations.

8. On account of these continued delays and slow progress, I considered it necessary that to complete the work within reasonable time, I must have more men down.

ordered three other officers down in the *Cuckoo*, and started them working up the river from the Cattalee, and the *Clyde* to continue the work seaward. The *Clyde* after this time made better progress, and when out of sight of land carried on the triangulation with boats and rafts about as far south as latitude $21^{\circ} 21'N$. I then went round by sea in the *Resolute* to examine the heads of the sands. I considered it would have been waste of time and money to make a finished survey of the heads unless we were going to lay buoys at once, as in the event of having to lay them, the whole place would have to be re-surveyed. Out of sight of land in the absence of any marks, whenever it comes to laying the buoys we must traverse up the channels to pick up the proper places for laying them; any finished survey would therefore go for nothing until the buoys are to be actually laid.

9. On arriving off the Mutlah light-ship, I took a departure and then stood up channel, connected up with the *Clyde's* lower triangulation marks, and then went seaward again, and examined the channels. I found that Ward's chart seaward of the above-named Latitude ($21^{\circ} 21'$) was quite correct enough for all practical purposes, and I then settled only to go another two miles seaward and withdraw the *Clyde* to Calcutta. I then returned in the *Resolute* by sea; again examining carefully the heads of the sands during the passage round.

10. On the 7th February the *Clyde* having completed very nearly to the position I

had ordered returned to Calcutta, and was paid off, the vessel laid up, and the officers reverted to their proper work on the Hooghly river. I then worked only with the marginally

noted officers with steamer *Cuckoo* and steam-cutter *Wasp*, and employed no other officers during the remaining time the survey was in progress. Nothing of special interest occurred during this time, the weather being fine and the crews fairly healthy.

11. During the progress of the survey, I took the precaution to sink iron sockets in different parts of the river bank, and connected them by triangulation; so that any future surveyors may be able to work on my lines, that is, the value between any two adjacent sockets being known, a survey may be commenced at once. It will also greatly facilitate the laying of the buoys should we have to do so. I also built bench marks at Cattalee, Napookrya, Chora, Haroobanga, and Hooghly Nuddee, the value of each being recorded on the charts. There is also a bench mark placed in the Port Canning Company's house, which the agent has kindly undertaken to preserve, the particulars of which are also recorded on the Port Canning charts.

12. I should here mention that I considered it necessary to survey Port Canning again in April, as a detached piece of sand had formed off Bidungunge flat, and I was anxious to see if any other alterations had occurred; besides I wished to take the survey into the Bidyadarree River as far round as the rice mills, and as all the points had been trigonometrically laid down, it only meant the detention of another week. The field-work was entirely completed by the 17th of April when the party returned to Calcutta, the extra establishment was discharged, and the officers and crew sent back to their duty on the Hooghly river.

13. During the time the survey operations were being undertaken, there was comparatively very little sickness amongst the crews, although they were exposed all day long; and when the triangulation and shore detail was being done, they were knocking about the swampy jungle from daylight till dark. Mr. Jones appears to have been the greatest sufferer, as he complained of fever on and off the whole time he was there, and was recommended for a month's sick leave by the Port Commissioners' Surgeon on his return to Calcutta. A few of the men got slight fever, but it is just possible they (who are subject to this sort of thing) may have got it anywhere else. The number of miles sounded in the Mutlah river was 935, and the coast line mapped and trigonometrically laid down 235 miles.

14. Amongst the officers employed on the Mutlah survey, I wish especially to bring to notice the services of Mr. G. D. Waller. He was most untiring in his effort to assist me in every possible way, and his work was most carefully and accurately laid down.

15. *Tides.*—The tides in the outer channels, that is below Dalhousie, appear to rotate in the same way as they do in the Hooghly, viz., the first of the flood to the W. N. W. working round to E. N. E., and the first of the ebb commencing at E. S. E. working round to W. S. W. and the strength of the tides similar to those of the Hooghly. The flood on nearing the land runs direct up channel, the greater part tending towards the eastern shore until abreast of Dalhousie River when it slightly crosses south of the Greppler shoal towards Peel's Point, forming unimportant eddies off that place; it then runs direct up channel until abreast of Rodgers' Point where it bifurcates, the greater portion running up the Biddah River and the rest round Rodgers' Point into Cattalee bight, leaving perfectly slack water in the vicinity of Biddah Point. From Cattalee bight the water runs along past Cattalee Point into Ward's reach forming eddies off Cattalee Point, and on reaching that shore the strength of the tide runs up the back of Napookrya sand to Middle Point; from thence the tide crosses the river running up that shore until it reaches nearly abreast of Cooltolla river, when it is again diverted into Haroobanga reach; it then runs fair up channel until abreast of Cuckoo Point, when it crosses the river hitting the eastern bank about $\frac{1}{2}$ of a mile south of Rhonie Point, forming a large space of slack water off the point with strong eddies in the channel; it there runs across to Cawasjee Point and there disperses itself, the greater part crossing between the Hooghly and Rhonie sand, and the remainder over, and at the back of Hooghly sand uniting again off

Hooghly Nuddee, forming moderate eddies. A part of the flood then runs up Hooghly Nuddee and the remainder into the opposite bight and from there direct up channel forming eddies of the point below Edoo village. After clearing Edoo reach the strength of the flood runs up the back of Daboghur sand, and then fair up channel into Canning. The strength of the flood tide slightly varies in different parts of the river, but the maximum rate recorded was on the top of a spring tide off Canning, when its velocity reached 5 knots an hour.

16. The ebb tide inside the Mutlah river sets fairly down the channels until off Rodger's Point, where it forms considerable eddies; it then runs down along Peel Island and straight down the channel until last quarter ebb, when the direction of the tide runs S. W. from about abreast of Dalhousie Point across the river towards Halliday's Island. The maximum of the ebb tide recorded was from $2\frac{1}{2}$ to 3 knots per hour. The maximum rise of tide was at Port Canning 18 feet 4 inches above the lowest recorded low water.

17. *Description of the land adjoining Mutlah River*.—It may be just as well to place on record a brief description of the land adjoining the Mutlah as it now is, in 1884, from Canning to the sea. Port Canning town is in a most dilapidated condition; all the brick buildings, except three dwelling-houses exclusive of the Railway station, Cutchery, and rice mills, have gone to ruin. The bazar is totally neglected and falling to pieces, and no water fit to drink is obtainable in the place, the large tanks being more or less impregnated with salt. There are about 700 native huts, but the occupiers are about the most lazy set of people I have ever met. It was with difficulty you could get the services of coolies, and even then we had to get the influence of the Port Canning Company Agent or Manager of the Rice Mill, Mr. Zeigler, to bear before they would work for you.

18. The whole of the foreshore from Canning station round to the rice mill, in the Bydiadaree River, is more or less washing away, and numerous spurs or groins have been erected round the place with a view of preserving the land from further erosion. A tramway line of 3·8 miles, which encircles the locality where the town would have stood, is sadly in need of repairs. The five jetties are simply worn-out for want of attention, and the boat dock, which I am given to understand was dug 10 to 12 feet deep, is now overgrown with coarse grass and scrub, the dock gates and walls having all fallen into the Bydiadaree River. Just to the eastward of the entrance to the boat dock is a large well-built sluice, which appears to be kept in fair repair. The whole of the land inside the tram line is overgrown with Oola grass, which is sent to Calcutta by train. There is one mixed train running daily to Canning, and back, from Sealdah station. The rice mills were working daily during the time the survey parties were working in the Mutlah, the Manager living in the large building that was erected as an hotel.

19. The Port Canning Company's Agent (Mr. Cowasjee Eduljee) also resides at Canning and manages large tracts of land that are under rice cultivation. He informed me that during the dry season very little fever indeed existed amongst the natives, and even during the rains there does not appear to be half as much as in former years. This can be very easily accounted for, as the jungle has been cleared as far down as Daboghur khull on the right bank, and Edoo on the left bank; and I understand that the Canning Company are still extending the clearance on both banks. Opposite Canning are the remains of a very fine Gridiron and wooden bhungalow all more or less in bad repair. Otherwise between Canning and Edoo reach there are only native villages sprinkled about the clearance. The whole of the land below Edoo reach right down to the sea is one dense jungle, the land very uneven with undulations at intervals as if parts had sunk. At high water spring tides below the Cattalce, the water runs some distance inland.

20. I picked up traces of former habitation nearly everywhere, and in one place I found bricks about 14 feet below the high line, and along the sea face in some parts the place is literally lined with old bricks, some worked into the shape of pebbles by the wash on the sea beach.

21. The whole of the country is infested with tiger, pig, and deer. We saw six tigers during the time the survey was going on, and on the right bank of the river whenever you land and the jungle is fairly light you can trace the fresh marks of tiger. The lascars refused simply to land unless we fired a rifle off before doing so. In March last a tiger badly mauled a man within two miles of Canning, and it is a wonder to me that we don't hear of more wood-cutters being taken off.

22. *Alteration in the channels compared with former surveys*.—It is impossible to make any really test comparison regarding the alterations of the channels in the Mutlah as compared with former surveys, as I have failed to trace any record as to what the soundings on those former charts were reduced to, but presuming they were reduced to the lowest low water, I will use that as a basis to draw up a comparison between Ward's survey and the one recently undertaken by myself.

23. *Western or Ward's channel*.—The lower part of the channel, from the light-ship to about lat. $21^{\circ} 20'$ north, appears to be about the same, the soundings shoaling very quickly from 11 to 5 fathoms. This long flat extends right up abreast of the narrow part of the channel between the shoalest part of the Roymutlah and Butchery sands. You will then carry 25 feet the least water, deepening very quickly as you get to the northward, and when clear of the apex of Roymutlah shoal you have a splendid channel of deep water. This compares very favourably with Ward's chart, which only showed 24 as least water; but the position of his shoal-water is much farther northward than is shown on our chart.

24. *Eastern Channel*.—Situated between Roymutlah and Bhanganony sands appears not to have altered anything very noticeable within the channel, but the upper end about 24

miles south-west of Dalhousie Point a shoal has formed with only 9 feet on it at low water, which contracts the deep channel in that locality to only a mile wide, whereas in Ward's sheets no such shoal existed, and the channel was in the same locality about $2\frac{1}{2}$ miles wide. The Roymutlah sand has entirely changed in shape since Ward's survey. He showed a dry patch of some extent, and a long tongue of sand with less than 24 feet on it running nearly up to Dalhousie Point. This has entirely washed away. The head of the sand is now quite abrupt, with 18 feet at the apex, which is six miles south of Dalhousie Point, and to the northward of this the water immediately deepens to over 30 feet. The dry patch does not exist, the least water found being 2 feet; but at all times there are very heavy rollers over this shoal.

25. *Dalhousie Flat.*—In 1853 this shoal shown just abreast of Dalhousie Point and trended away in the direction of the channel, and therefore did not interfere very much with it. The flat now has formed a little above Dalhousie Point, and extends one mile westward into the channel, and then runs due south $2\frac{1}{2}$ miles; then a small channel exists, of 22 to 23 feet, and after which, comes the 9-foot patch already referred to. This patch, I have no doubt, is formed by what was formerly the tail of the Dalhousie Flat, and probably in the accumulation of sand washed away from the small channel of 22 to 23 feet, but moved so much further to the westward. From Dalhousie Point to the entrance of the Cattalee reach the deep-water channel has remained fairly the same in width as shown in Ward's chart, but the depth of water generally is considerably greater. The positions of the several shoals have considerably altered; the small island which bore about N. $\frac{1}{2}$ W. distance $1\frac{1}{2}$ miles from the north end of Halliday's Island, has entirely disappeared; there is now any depth from 40 to 60 feet at low water in that position. The shoal of Halliday's Island has entirely altered. There is now a large dry flat extending from the south-eastern point along the eastern side of the island to about $\frac{1}{2}$ of a mile north of it; there another small dry patch exists $\frac{1}{2}$ of a mile north of that. In Ward's chart there is a narrow shoal spit with from $\frac{1}{2}$ to 1 fathom of water over it extending from the north point of Halliday's Island right up to Peel's Point, thus forming a bar across the Bonia River. From three miles north of Halliday's Island this said spit has entirely washed away, the present chart showing 40 to 60 feet. The spit off the south point of Halliday's Island has also disappeared, the 19 foot shoal about 1 mile south-west of Grant's Point has vanished, and there is from 30 to 40 feet in that position. The long flat just south of Rogers' Point showing 9 feet as the least water has also disappeared, the least water on it now being 25 feet. About two-thirds of the way between Dalhousie Point and Halliday's Island a new shoal (which I have named the Middle Ground) has formed with 15 feet as least water on it, but there is plenty of water and a good channel to the westward of it. Ward's chart shows 35 feet in the same position. The Grappler sand has altered somewhat in shape, and has extended to the southward with 11 to 12 feet on its south end. Another long and narrow shoal with 23 feet least water has formed in the channel about $1\frac{1}{2}$ miles north of Bendon's Point and 1 mile off the left bank.

The high water line, or I should more correctly define it, the jungle line, shows a considerable difference in width from bank to bank as compared with Ward's chart varying from $\frac{1}{4}$ to one mile, the recent survey showing always the greater width. Halliday's Island also appears to have washed away, it being $\frac{1}{2}$ mile less in length than Ward's chart shows.

I hardly think that the banks could have washed away or widened a mile in 31 years, but I observed at all times enormous quantities of earth falling into the river.

Between these two places therefore "Dalhousie to entrance of Cattalee," although considerable alterations have occurred, it has not affected the navigable channel beyond that it is now deeper than it was 30 years ago.

The Cattalee.—Very considerable changes have occurred in the Cattalee since Ward's survey. The Diamond sand which extended the whole length of the reach had always $1\frac{1}{2}$ feet on it, whereas now there is a large patch of sand showing 2 to 3 feet dry above low water.

The south channel has a bar extending from Rodgers' Point and connects with the Diamond sand, but on the north channel the flood tide appears to have cut right through the sand, forming a channel into Cattalee bight leaving the eastern tail of Diamond sand off Biddah Point intact. There are two small patches of 15 and 17 feet in the channel, but otherwise it is much deeper than it was in 1853, and on an average in the narrowest part about 200 feet wider.

The next alteration of importance is in the locality of Middle Point. The Napookrya sand has extended 2 miles further down the river with a dry patch situated about where the limit of the sand is shown on Ward's chart, and it now forms two channels into the next bight, one close past Middle Point, and the other across to Waller's point. There is also a dry patch of sand to the northward of Middle Point where Ward gives nothing under 7 feet. Above this position to Bhoie Point the water is fairly clear of shoals: the small flat above Cuckoo Point, the 19-foot flat just below and nearly in centre of the river, and the small shoal off Cooltolah River shown on Ward's chart having all disappeared.

Between Hooghly Nuddoe and Bhoie Point, the channels and sands have entirely altered, the narrowest part of the channel in Ward's chart shows nothing under 1,000 feet, but now there is barely 400 feet.

At east entrance to Edoe reach an extensive flat has formed off Golabarry Point, giving only 14 feet where formerly 50 to 60 feet were shown, otherwise Edoe reach is somewhat similar to what it was in former surveys. From Edoe to Canning the general feature of the chart appears about the same.

From the above comparison it will be seen that since the survey of 1853 several alterations have occurred both in new sands and shoals forming, and others washing away; but taking the actual navigable channels, it appears to me that in direction and width there has been very slight alteration indeed, except in two places in the upper reaches (Napookrya and Bhonie), but in nearly every instance the channel is now deeper, and at places differing as much as from three to four fathoms.

Referring to the two places Napookrya and Bhonie, in the former locality, the Napookrya sand having come so far down, the flood tide has made a channel at the back of the sand, so that the place has improved; but regarding Bhonie reach the channel has narrowed down to 400 feet from 1,000 feet in 1853; but a fair channel with a bar of 12 feet between Bhonie and Hooghly sand could be taken on a flood tide by inward-bound vessels, provided the proper crossing marks were erected. All the sands that were covered more or less with water in the former survey have now a very considerable amount dry, so that with the deeper channels and large alterations in the sands we must conclude that very many alterations have occurred regardless of the fact of our soundings being reduced to only approximately the same level as Ward's survey of 1853, as I dare say there would not be more than a foot difference at the most.

The most important drawback to the navigation of the river is that below Dalhousie Point to the light-ship the ground is so flat and the soundings so regular that your lead is no guide in bad or thick weather as to which side of the channel you are on, and the edges of the sands so steep that before you get time for a second cast, your vessel would probably be on shore. Inside the river the same thing occurs as far as the sands are concerned. You cannot borrow on them at all, and the channels are so deep that it is only in a few places that you could pick up a really good anchorage.

But at the same time I have no hesitation in saying that with the channels properly lighted and buoyed, masters of ships with ordinary care, and providing that the weather was fairly clear, might very safely take their vessels up to abreast the Cattalee without the aid of a pilot.

Sailing directions for the guidance of vessels making the port I must necessarily defer until such time as the lights and buoys are laid, as they would not be of much use without a full description of them included in the directions.

The estimated cost of this survey was Rs. 9,890, and the actual expenditure has been Rs. 7,962, exclusive of Rs. 400 which will still have to be expended in publishing the charts, so that the total cost of the survey will be Rs. 8,362, leaving a balance of Rs. 1,528.

In the event of the Port Commissioners deciding to open the Mutlah, I beg to append the following estimates:—

(a).—Cost of opening the river entirely, that is, for all classes of vessels navigating both day and night.

(b).—Opening the river for day navigation only.

My opinion at present is that if the river is opened, a small steamer will be required to look after the conservancy, but I will be able to give a better opinion on this point after next season's buoy work is completed in the Hooghly.

To light up both channels three-light vessels, besides the present Mutlah vessel, and a pile light-house on the south-east corner of Halliday's Island would be the minimum number of lights required for safe navigation.

ESTIMATE A.

Opening the river for day and night navigation.

Total					78,790

In concluding this report I beg the Commissioners will be good enough to express their thanks to Mr. Zeigler, Manager of the Rice Mill, and Mr. Cowasjee, Agent to the Port Canning Company.

These gentlemen spared neither time nor trouble to attend to all our wishes, and their local knowledge and influence were always most willingly placed at our service.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 60.)

AFRICA—EAST COAST.

GULF OF ADEN.

Buoyage of the reefs at the entrance to Zeyla.

With reference to Notice to Mariners No. 57, issued from this Department, 11th October 1884, relative to the intended buoyage of the reefs at the entrance to Zeyla, information has been received announcing that the buoys were laid down on the 14th September 1884:—

EFAT SHOAL BUOY—A red iron conical buoy has been moored in 7½ fathoms, at low water ordinary spring tides, at the East end of the shoal off Efât Island, and the following bearings are given:—

Centre of Zeyla town	S 24° W.
Right extreme of Sadalden Island	S 55° W.
Right extreme of Efât Island	N 71° W.

FILFIL SHOAL BUOY—A red iron conical buoy has been laid in 6 fathoms, at low water ordinary spring tides, at the West end of Filfil shoal, with:—

Centre of Zeyla town	S 48° W.
Right extreme of Sadalden Island	N 88° W.
Right extreme of Efât Island	N 53° W.

CHANNEL REEF BUOY—An iron conical buoy with black and white vertical stripes has been laid down on the Channel reef in 4 fathoms, at low water ordinary spring tides, in the following position:—

Centre of Zeyla town	S 36° W.
Right extreme of Sadalden Island	S 81° W.
Right extreme of Efât Island	N 53° W.

There is a small white *beacon* like a mosque just inside the North end of Efât Island. *Directions*.—Vessels bound for Zeyla can either make Efât shoal buoy or the Filfil shoal buoy, and if the weather is clear the town will be seen before getting up to the buoys. Efât shoal buoy should be passed to the Eastward, and Filfil shoal buoy to the Westward, giving Channel reef buoy a berth of half a mile on either side. The directions given in the Gulf of Aden Pilot will then suffice. If the Channel reef buoy be washed away, great care is necessary in passing the reef, as it is difficult to distinguish and steep-to, and seems to be of larger dimensions than those given in the Gulf of Aden Pilot.

The Bearings are Magnetic.

NOTIFICATION.

The 31st October 1884.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following Port and Pilot rules for the Port of Chittagong. They will take effect from the 1st November 1884.

The Port of Chittagong, and the navigable river and channels leading thereto, having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act) in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow:—

To the north-east,—a line drawn across the river Karnafulee from the boundary pillar at the mouth of the Chaktai nullah to the boundary pillar on the opposite bank of the said river.

To the south,—a line drawn from Joodia flagstaff to Patunga beacon.

These limits include so much of the river Karnafulee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow:—

To the north-east,—the Port of Chittagong as above defined.

To the south,—a line drawn west from Norman's Point light-house.

To the north,—the port as defined above, and from Patunga beacon a line drawn due west seaward.

To the west,—a line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east,—the south bank of the Karnafulee river between Joodia and Norman's Point light-house.

All parts of the river Karnafulee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

Port dues shall be levied at the following rates once in 60 days in the Port of Chittagong:—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

Port Rules.

The following Port Rules are hereby promulgated for general information and guidance:—

Rule I.—Within 24 hours after arrival within the limits of the port, the master should report to the Port Officer the arrival of his vessel, which shall be put into moorings or shall take up such berth as may be appointed by the Port Officer, from which she shall not be removed (except in case of emergency) without the sanction of the said officer. Every vessel shall change her berth when required by the Port Officer to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear way.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats.

Rule IV.—Every vessel in moorings shall use her bower chain for her stern moorings, or such other chain that may be approved of by the Port Officer, who, in case of approaching bad weather, may have the same changed or doubled at his discretion.

Rule V.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging at the davit as soon as she has moored, and shall so retain them, unless otherwise authorized by the Port Officer.

Rule VI.—Every vessel entering the port between the 15th day of May and 15th day of November shall send down her top-gallant yards, and have mast ropes rove ready to send down her top-gallant masts at short notice on receiving instructions from the Port Officer.

Rule VII.—No ballast shall be discharged from shipboard, or landed from boats, or taken from the shore or river banks within the port and its approaches without the previous sanction of the Port Officer, who may appoint ballast guards to supervise the work.

Rule VIII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule IX.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light, visible all round the horizon, at a distance of one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade Regulations.

Rule X.—All ballams, cargo-boats, bhurs, and huddergows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen.

Rule XI.—Except in cases of emergency, no vessel shall be moored, or unmoored, and no hawsers and warps shall be left out between sunset and daybreak.

Rule XII.—Vessels fouling buoys, tide-gauges, or any other plant of the port, shall report the same to the Port Officer in writing without delay, stating the time and manner of occurrence. Violation of this rule will render the master of the vessel liable to a penalty not exceeding Rs. 100.

Rule XIII.—Every vessel of a draught of 12 feet and under shall anchor on the shoal side of the river, or, off town, from below the pier on the south side of the river, and from Goshaldanga to Domacolly on the eastern side of the river, and below Domacolly to Gooptacolly on the northern side of the river, and keep in a line so as not to obstruct the navigation of the river in any way. Vessels will also keep on board a crew not less than the following scale according to their tonnage set forth below, viz.—

	Men.
Vessels of 100 tons and under	3
" of 100 to 199 tons	4
" of 200 " 299 "	5
" of 300 " 499 "	6
" of 500 " 699 "	7
" of 700 and upwards	10

Rule XIV.—Vessels shall not anchor in fairway off the bar, or on the bar, and any vessel so anchoring shall be liable to a fine not exceeding Rs. 100 for every day or portion of a day on which she may remain in the fairway or on the bar.

Rule XV.—No vessel dropping up or down the river shall anchor in the fairway unless she be of heavy draught or of great length. Any vessel on the move or waiting the next tide shall shear out of the channel and anchor as far out of the fairway as she can do without risk.

Rule XVI.—Vessels occupying moorings or using the heave-up boat will be subject to the undermentioned charges:—

	Rs.
Occupying moorings, per diem ...	6
Occupying swinging buoys ...	■
For mooring at or unmooring from the fixed fore-and-aft moorings with the use of heave-up boat on each occasion ...	16
For mooring at or unmooring from swinging moorings with the use of heave-up boat on each occasion ...	10
Harbour Master's fee for mooring or unmooring a vessel on Sundays and holidays ...	10
Use of heave-up boat for assisting a vessel, per diem ...	82
Running out anchors for vessels on shore, or going on the hard, to clear bottom on each occasion ...	82
Use of Government bawser, per diem ...	10
Shifting a vessel's berth for the convenience of the owners ...	16
Vessels occupying the jetty head for loading or discharging cargo other than salt, per diem ...	20
Vessels occupying the jetty head for loading or discharging salt, per thousand maunds ...	10
Salvage on anchors and cables, per cwt. ...	3-8

Rule XVII.—No person, unless authorized by the Port Officer, shall creep or sweep within the port for anchors, cables, or other stores lost, or supposed to be lost, therein.

Rule XVIII.—Any sampan, cargo-boat, or other vessel going alongside an arriving steam-vessel before she is anchored, shall be liable to a penalty not exceeding Rs. 100.

Rule XIX.—The Port Officer, or any one deputed by him, shall not be interfered with in the execution of his duty.

Rule XX.—No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Port Officer.

Rule XXI.—All applications to be hauled into, or cast off from, the moorings, or for any other assistance, shall be made either personally or by letter to the Port Officer. Applications will, as far as possible, be complied with in order according to date of receipt.

Rule XXII.—Storm signals will be only used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a severe cyclone with its attendant storm-wave. The following are the storm signals which will be used within the limits of the port. They will be hoisted on the flagstaff yard-arm at Sudder ghât and on the Joodia flagstaff yard-arm on receipt of instructions from the Meteorological office.

A ball indicates that a severe cyclone, of which the centre is in the neighbourhood of Aktyab, will probably advance towards Chittagong.

1. Day warning signal.

A drum indicates that a severe cyclone with its attendant storm-wave is approaching Chittagong.

2. Day danger signal.

Three lights in a vertical plain indicate that a severe cyclone, of which the centre is in the neighbourhood of Aktyab, will probably advance towards Chittagong.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a severe cyclonic storm and its attendant storm-wave to the Port of Chittagong.

4. Night danger signal.

Rule XXIII.—Vessels lying in the stream or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go. Vessels with no spare bawser pipe for cables shall have a good hawser bent ready for letting go.

Rule XXIV.—Every ship or vessel within the port shall remove any anchor or spar, or other thing projecting from her side when ordered to do so.

Rule XXV.—No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the port. Closed lanterns, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Rule XXVI.—Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept light only between daybreak and 9 p.m. Fires for cooking shall not be allowed on board of vessels in dock.

Rule XXVII.—With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600; provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter-deck or other convenient place.

Rule XXVIII.—When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Rule XXIX.—No vessel shall lie at single anchor in the port unless a pilot or assistant harbour master is on board; and a fee of Rs. 10 per diem will be charged for his services.

Rule XXX.—All vessels about to leave the port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

Rule XXXI.—No vessel shall steam, sail, or be towed up on the flood or down on the ebb within port limits except with the permission of the Port Officer.

Rule XXXII.—River steamers and tug steamers having no vessels in tow are permitted to move up on the flood, or down on the ebb, at their own risk and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

Rule XXXIII.—For the use of the Government Launch Fire-engine, a charge of Rs. 60 will be made for every twelve hours and part thereof.

Rules for Pilots in the Port of Chittagong.

I.—Pilots in charge of inward-bound vessels are required to hoist the vessel's number, and, if not taken or from dutiable ports, are to have the number hoisted at the main-mast head for the information of the Customs Inspector, Jaldia.

II.—A pilot on taking charge of an inward-bound vessel shall, immediately on boarding her, hoist his distinguishing number, and hand over to the master of the vessel the following papers:—(1) Port Rules, (2) Pilotage Rules, (3) Medical Inspection Rules, (4) Customs Regulations. If any case of cholera, small-pox, or other epidemic disease common in India is on board he shall at once report the fact to the Port Officer, stating the number of cases, and shall await orders before taking up any anchorage in the harbour.

III.—A pilot detained on board at Jaldia will, in the event of the captain refusing to take steam, report the matter to the Port Officer and await orders.

IV.—The pilot shall not give over charge of his vessel in the river unless she has been moored or he has been relieved by a harbour master or other officer authorised to take charge.

V.—Pilots on arrival off town shall state the time of arrival, the vessel's name, the place where she has been left, and, if moored, with how much chain each way. This information is to be entered in a book kept at the Port Office for that purpose.

VI.—Every pilot shall on arrival report to the Port Officer the number of pilots on the station, and also any alterations he may have observed in the river on his way up.

VII.—No pilot shall take charge of an outward-bound vessel without an order signed by the Port Officer, or proceed unless the vessel has obtained her customs clearance. If the vessel is to take steam, he should not break ground without satisfying himself that the tug is engaged to take the vessel to sea, or to remain by her till the vessel is outside the Outer Bar.

VIII.—The pilot shall ascertain that the vessel has two serviceable bower anchors, and if she has not a sheet or spare anchor fit for a bower over her side, that she has one in such a position on deck that it can easily be brought into use in case of necessity. Also that a kedge with line ready bent be on deck and ready for immediate use.

IX.—If a pilot appointed to take a vessel to sea during neaps considers her draught too much, and that it would involve a risk and responsibility which he is unwilling to take, he should at once communicate the fact to the master and report to the Port Officer, for orders, fully explaining his grounds of objection.

X.—If after a pilot joins a vessel he finds that she is of larger draught than she was reported to be, or that she takes in any cargo that alters her draught, he will at once report the matter to the Port Officer and await orders.

XI.—Pilots are on no account to cross the bar between sunset and sunrise, on pain of dismissal, without the permission of the Port Officer in writing, the cost of lighting the buoys being defrayed by the ship concerned.

XII.—A pilot shall not relinquish charge of a vessel unless on account of sickness or other unavoidable necessity. If he is in any way impeded in the performance of his duty, he should report the circumstances to the Port Officer, and, if necessary, anchor the vessel.

XIII.—Pilots shall attend the Port Office daily, and shall not leave town without permission from Port Officer being previously obtained.

XIV.—Until further orders, pilots shall be guided by the following rules as to the draughts

of vessels to be moved either up or down, in or out:—

- (a)—They may move a vessel in or out without steam at a draught of 18 feet, and with steam to any reasonable draught.
- (b)—Vessels of 275 feet length and upwards shall not be brought up above Moiscally without permission from Port Officer, to whom her length and draught must be reported in writing.

XV.—No pilot on his way up or down the river, and not employed on any special duty, shall pass a vessel having a pilot signal flying without boarding her and ascertaining why she is without a pilot, and if required shall take charge of her, and take her on her way and stop by her until she can be left in safety.

XVI.—Masters are requested to report when there appears to have been any unnecessary delay in getting the pilot on board.

XVII.—If a vessel loses an anchor or anchors, the pilot shall immediately submit a report to the Port Office. The report should be attested by the master of the vessel, and to enable the Port Officer's Department to identify the lost articles, it shall indicate accurately the following particulars:—

- (1)—Locality of the loss.
- (2)—Bearings of known objects.
- (3)—Description, weight, and distinctive marks of anchors.
- (4)—Description and quantity of cable.

XVIII.—Should a vessel ground, collide with any vessel or buoy, or meet with any casualty while under weigh or at anchor, the pilot shall, on the first opportunity, forward to the Port Officer a report in writing of the occurrence, containing the following particular:—

- (a)—Locality of the accident.
- (b)—Bearings of any known object in view.
- (c)—The vessel's draught of water.
- (d)—The time of tide.
- (e)—Hour of the day the accident occurred.
- (f)—Manœuvre the pilot was executing or attempting to execute.
- (g)—The damage, if any, sustained.
- (h)—The time the vessel was on shore.
- (i)—Quantity of water made by the vessel.

XIX.—Pilots, before leaving a vessel, shall obtain a certificate from the master as to how he has performed his duty, and present the same to the Port Officer on arrival.

XX.—Pilots, whilst in town, should daily inspect carefully the channel and the river-hook kept at the Port Office.

XXI.—If the pilot considers himself aggrieved by any conduct on the part of the master of a vessel, he shall transmit his complaint in writing to the Port Officer for his consideration and orders.

XXII.—Masters or agents are requested to give at least 24 hours' previous notice when a pilot is required to shift or take a vessel to sea or for any other purpose, to enable the Port Officer to send for pilots from the mouth of the river, if required.

XXIII.—The cutter with pilots shall cruise on the day backwards and forwards from the Outer Bar buoys to off the mouth of the Sangoo river during the south-west monsoon, weather permitting, and shall remain day and night on her station, viz. three miles outside the Bar buoys during the north-east monsoon. The senior pilot on board will be held responsible should any complaint be made owing to delay being incurred in getting, or putting on, or taking a pilot out from a vessel.

XXIV.—The sanctioned pilotage charge is as follows:—

Draught in feet.	8	9	10	11	12	13	14	15	16
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	30	36	42	50	60	70	84	96	120

Draught in feet.	17	18	19	20	21	22	23
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	135	147	160	180	205	230	260

When the draught exceeds by more than six inches any depth here provided for, the next foot of draught shall be charged for.

For every foot, or part of a foot, exceeding six inches above 23 feet, an additional sum of Rs. 32 will be charged. Three-fourth rates will be charged for steamers and vessels towed by steam.

XXV.—In every case in which the services of a port pilot are not used, and the vessel is piloted by a person specially licensed to pilot in the Chittagong river, half the sanctioned charge for pilotage shall be paid.

XXVI.—All persons specially licensed to pilot in the Chittagong river shall be subject to the control of the Port Officer in regard to their pilotage work.

AFRICA—EAST COAST.

GULF OF ADEN.

Buoyage of the reefs at the entrance to Zeyla.

With reference to Notice to Mariners No. 57, issued from this Department, 11th October 1884, relative to the intended buoyage of the reefs at the entrance to Zeyla, information has been received announcing that the buoys were laid down on the 14th September 1884:—

EFAT SHOAL BUOY—A red iron conical buoy has been moored in $7\frac{1}{2}$ fathoms, at low water ordinary spring tides, at the East end of the shoal off Efât Island, and the following bearings are given:—

Centre of Zeyla town	S 24° W.
Right extreme of Sadalden Island	S 55° W.
Right extreme of Efât Island	N 71° W.

FILFIL SHOAL BUOY—A red iron conical buoy has been laid in 6 fathoms, at low water ordinary spring tides, at the West end of Filfil shoal, with:—

Centre of Zeyla town	■ 48° W.
Right extreme of Sadalden Island	N 88° W.
Right extreme of Efât Island	N 53° W.

CHANNEL REEF BUOY—An iron conical buoy with black and white vertical stripes has been laid down on the Channel reef in 4 fathoms, at low water ordinary spring tides, in the following position:—

Centre of Zeyla town	S 36° W.
Right extreme of Sadalden Island	S 81° W.
Right extreme of Efât Island	N 53° W.

There is a small white beacon like a mosque just inside the North end of Efât Island.

Directions.—Vessels bound for Zeyla can either make Efât shoal buoy or the Filfil shoal buoy, and if the weather is clear the town will be seen before getting up to the buoys. Efât shoal buoy should be passed to the Eastward, and Filfil shoal buoy to the Westward, giving Channel reef buoy a berth of half a mile on either side. The directions given in the Gulf of Aden Pilot will then suffice. If the Channel reef buoy be washed away, great care is necessary in passing the reef, as it is difficult to distinguish and steep-to, and seems to be of larger dimensions than those given in the Gulf of Aden Pilot.

The Bearings are Magnetic.

NOTIFICATION.

The 31st October 1884.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following Port and Pilot rules for the Port of Chittagong. They will take effect from the 1st November 1884.

The Port of Chittagong, and the navigable river and channels leading thereto, having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act; in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow:—

To the north-east,—a line drawn across the river Karnafulee from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south,—a line drawn from Jooldia flagstaff to Patunga beacon.

These limits include so much of the river Karnafulee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow:—

To the north-east,—the Port of Chittagong as above defined.

To the south,—a line drawn west from Norman's Point light-house.

To the north,—the port as defined above, and from Patunga beacon a line drawn due west seaward.

To the west,—a line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east,—the south bank of the Karnafulee river between Jooldia and Norman's Point light-house.

All parts of the river Karnafulee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

Port dues shall be levied at the following rates:—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, $4\frac{1}{2}$ annas for every ton of burthen.

Port Rules.

The following Port Rules are hereby promulgated for general information and guidance:—

Rule I.—Within 24 hours after arrival within the limits of the port, the master should report to the Port Officer the arrival of his vessel, which shall be put into moorings or shall take up such berth as may be appointed by the Port Officer, from which she shall not be removed (except in case of emergency) without the sanction of the said officer. Every vessel shall change her berth when required by the Port Officer to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats inshore.

Rule IV.—Every vessel in moorings shall use her bower chain for her stern moorings, or such other chain that may be approved of by the Port Officer, who, in case of approaching bad weather, may have the same changed or doubled at his discretion.

Rule V.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging at the davit as soon as she has moored, and shall so retain them, unless otherwise authorized by the Port Officer.

Rule VI.—Every vessel entering the port between the 15th day of May and 15th day of November shall send down her top-gallant yards, and have mast ropes rove ready to send down her top-gallant masts at short notice on receiving instructions from the Port Officer.

Rule VII.—No ballast shall be discharged from shipboard, or landed from boats, or taken from the shore or river banks within the port and its approaches without the previous sanction of the Port Officer, who may appoint ballast guards to supervise the work.

Rule VIII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule IX.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light, visible all round the horizon, at a distance of one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade Regulations.

Rule X.—All ballams, cargo-boats, bhors, and budgerows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen.

Rule XI.—Except in cases of emergency, no vessel shall be moored, or unmoored, and no hawsers and warps shall be left out between sunset and daybreak.

Rule XII.—Vessels fouling buoys, tide-gauges, or any other plant of the port, shall report the same to the Port Officer in writing without delay, stating the time and manner of occurrence. Violation of this rule will render the master of the vessel liable to a penalty not exceeding Rs. 100.

Rule XIII.—Every vessel of a draught of 12 feet and under shall anchor on the shoal side of the river, or, off town, from below the pier on the south side of the river, and from Goshaldanga to Domacolly on the eastern side of the river, and below Domacolly to Gooptacolly on the northern side of the river, and keep in a line so as not to obstruct the navigation of the river in any way. Vessels will also keep on board a crew not less than the following scale according to their tonnage set forth below, viz.—

				Men.
Vessels of	100 tons and under	...		3
"	of 100 to 199 tons	...		4
"	of 200 " 299 "	...		5
"	of 300 " 499 "	...		6
"	of 500 " 699 "	...		7
"	of 700 and upwards	...		10

Rule XIV.—Vessels shall not anchor in fairway off the bar, or on the bar, and any vessel so anchoring shall be liable to a fine not exceeding Rs. 100 for every day or portion of a day on which she may remain in the fairway or on the bar.

Rule XV.—No vessel dropping up or down the river shall anchor in the fairway unless she be of heavy draught or of great length. Any vessel on the move or waiting the next tide shall sheer out of the channel and anchor as far out of the fairway as she can do without risk.

Rule XVI.—Vessels occupying moorings or using the heave-up boat will be subject to the undermentioned charges:—

	Rs.
Occupying moorings, per diem ...	6
Occupying swinging buoys ...	8
For mooring at or unmooring from the fixed fore-and-aft moorings with the use of heave-up boat on each occasion ...	16
For mooring at or unmooring from swinging moorings with the use of heave-up boat on each occasion ...	10
Harbour Master's fee for mooring or unmooring a vessel on Sundays and holidays ...	10
Use of heave-up boat for assisting a vessel, per diem ...	32
Running out anchors for vessels on shore, or going on the hard, to clear bottom on each occasion ...	32
Use of Government hawser, per diem ...	10
Shifting a vessel's berth for the convenience of the owners, ...	10
Vessels occupying the jetty head for loading or discharging cargo other than salt, per diem ...	20
Vessels occupying the jetty head for loading or discharging salt, per thousand maunds ...	10
Salvage on anchors and cables, per cwt. ...	3-8

Rule XVII.—No person, unless authorized by the Port Officer, shall creep or sweep within the port for anchors, cables, or other stores lost, or supposed to be lost, therein.

Rule XVIII.—Any sampan, cargo-boat, or other vessel going alongside an arriving steam-vessel before she is anchored, shall be liable to a penalty not exceeding Rs. 100.

Rule XIX.—The Port Officer, or any one deputed by him, shall not be interfered with in the execution of his duty.

Rule XX.—No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Port Officer.

Rule XXI.—All applications to be hauled into, or cast off from, the moorings, or for any other assistance, shall be made either personally or by letter to the Port Officer. Applications will, as far as possible, be complied with in order according to date of receipt.

Rule XXII.—Storm signals will be only used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a severe cyclone with its attendant storm-wave. The following are the storm signals which will be used within the limits of the port. They will be hoisted on the flagstaff yard-arm at Sudder ghât and on the Joodia flagstaff yard-arm on receipt of instructions from the Meteorological office.

A ball indicates that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

1. Day warning signal.

A drum indicates that a severe cyclone with its attendant storm-wave is approaching Chittagong.

2. Day danger signal.

Three lights in a vertical plain indicate that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a severe cyclonic storm and its attendant storm-wave to the Port of Chittagong.

4. Night danger signal.

Rule XXIII.—Vessels lying in the stream or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go. Vessels with no spare hawse pipe for cables shall have a good hawser bent ready for letting go.

Rule XXIV.—Every ship or vessel within the port shall remove any anchor or spar, or other object projecting from her side, when ordered to do so.

Rule XXV.—No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the port. Closed lanterns, secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Rule XXVI.—Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept alight only between daybreak and 9 p.m. Fires for cooking shall not be allowed on board of vessels in dock.

Rule XXVII.—With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600: provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter-deck or other convenient place.

Rule XXVIII.—When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Rule XXIX.—No vessel shall lie at single anchor in the port unless a pilot or assistant harbour master is on board; and a fee of Rs. 10 per diem will be charged for his services.

Rule XXX.—All vessels about to leave the port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

Rule XXXI.—No vessel shall steam, sail, or be towed up on the flood or down on the ebb within port limits except with the permission of the Port Officer.

Rule XXXII.—River steamers and tug steamers having no vessels in tow are permitted to move up on the flood, or down on the ebb, at their own risk and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

Rule XXXIII.—For the use of the Government Launch Fire-engine, a charge of Rs. 50 will be made for every twelve hours and part thereof.

Rules for Pilots in the Port of Chittagong.

I.—Pilots in charge of inward-bound vessels are directed to hoist the vessel's number, and, if salt laden or from dutiable ports, are to have the ensign hoisted at the main-mast head for the information of the Customs Inspector, Jaldia.

II.—A pilot on taking charge of an inward-bound vessel shall, immediately on boarding her, hoist his distinguishing number, and hand over to the master of the vessel the following papers:—(1) Port Rules, (2) Pilotage Rules, (3) Medical Inspection Rules, (4) Customs Regulations. If any case of cholera, small-pox, or other epidemic disease common in India is on board he shall at once report the fact to the Port Officer, stating the number of cases, and shall await orders before taking up any anchorage in the harbour.

III.—A pilot detained on board at Jaldia will, in the event of the captain refusing to take steam, report the matter to the Port Officer and await orders.

IV.—The pilot shall not give over charge of his vessel in the river unless she has been moored or he has been relieved by a harbour master or other officer authorised to take charge.

V.—Pilots on arrival off town shall state the time of arrival, the vessel's name, the place where she has been left, and, if moored, with how much chain each way. This information is to be entered in a book kept at the Port Office for that purpose.

VI.—Every pilot shall on arrival report to the Port Officer the number of pilots on the station, and also any alterations he may have observed in the river on his way up.

VII.—No pilot shall take charge of an outward-bound vessel without an order signed by the Port Officer, or proceed unless the vessel has obtained her customs clearance. If the vessel is to take steam, he should not break ground without satisfying himself that the tug is engaged to take the vessel to sea, or to remain by her till the vessel is outside the Outer Bar.

VIII.—The pilot shall ascertain that the vessel has two serviceable hower anchors, and if she has not a sheet or spare anchor fit for a hower over her side, that she has one in such a position on deck that it can easily be brought into use in case of necessity. Also that a kedje with line ready bent be on deck and ready for immediate use.

IX.—If a pilot appointed to take a vessel to sea during neaps considers her draught too much, and that it would involve a risk and responsibility which he is unwilling to take, he should at once communicate the fact to the master and report to the Port Officer, for orders, fully explaining his grounds of objection.

X.—If after a pilot joins a vessel he finds that she is of larger draught than she was reported to be, or that she takes in any cargo that alters her draught, he will at once report the matter to the Port Officer and await orders.

XI.—Pilots are on no account to cross the bar between sunset and sunrise, on pain of dismissal, without the permission of the Port Officer in writing, the cost of lighting the buoys being defrayed by the ship concerned.

XII.—A pilot shall not relinquish charge of a vessel unless on account of sickness or other unavoidable necessity. If he is in any way impeded in the performance of his duty, he should report the circumstances to the Port Officer, and, if necessary, anchor the vessel.

XIII.—Pilots shall attend the Port Office daily, and shall not leave town without permission from Port Officer being previously obtained.

XIV.—Until further orders, pilots shall be guided by the following rules as to the draughts

of vessels to be moved either up or down, in or out:—

- (a)—They may move a vessel in or out without steam at a draught of 18 feet, and with steam to any reasonable draught.
(b)—Vessels of 275 feet length and upwards shall not be brought up above Moiscally without permission from Port Officer, to whom her length and draught must be reported in writing.

XV.—No pilot on his way up or down the river, and not employed on any special duty, shall pass a vessel having a pilot signal flying without boarding her and ascertaining why she is without a pilot, and if required shall take charge of her, and take her on her way and stop by her until she can be left in safety.

XVI.—Masters are requested to report when there appears to have been any unnecessary delay in getting the pilot on board.

XVII.—If a vessel loses an anchor or anchors, the pilot shall immediately submit a report to the Port Office. The report should be attested by the master of the vessel, and to enable the Port Officer's Department to identify the lost articles, it shall indicate accurately the following particulars:—

- (1)—Locality of the loss.
(2)—Bearings of known objects.
(3)—Description, weight, and distinctive marks of anchors.
(4)—Description and quantity of cable.

XVIII.—Should a vessel ground, collide with any vessel or buoy, or meet with any casualty while under weigh or at anchor, the pilot shall, on the first opportunity, forward to the Port Officer a report in writing of the occurrence, containing the following particular:—

- (a)—Locality of the accident.
(b)—Bearings of any known object in view.
(c)—The vessel's draught of water.
(d)—The time of tide.
(e)—Hour of the day the accident occurred.
(f)—Manœuvre the pilot was executing or attempting to execute.
(g)—The damage, if any, sustained.
(h)—The time the vessel was on shore.
(i)—Quantity of water made by the vessel.

XIX.—Pilots, before leaving a vessel, shall obtain a certificate from the master as to how he has performed his duty, and present the same to the Port Officer on arrival.

XX.—Pilots, whilst in town, should daily inspect carefully the channel and the river-book kept at the Port Office.

XXI.—If the pilot considers himself aggrieved by any conduct on the part of the master of a vessel, he shall transmit his complaint in writing to the Port Officer for his consideration and orders.

XXII.—Masters or agents are requested to give at least 24 hours' previous notice when a pilot is required to shift or take a vessel to sea or for any other purpose, to enable the Port Officer to send for pilots from the mouth of the river, if required.

XXIII.—The cutter with pilots shall cruise in the day backwards and forwards from the Outer Bar buoys to off the mouth of the Sangoo river during the south-west monsoon, weather permitting, and shall remain day and night on her station, viz. three miles outside the Bar buoys during the north-east monsoon. The senior pilot on board will be held responsible should any complaint be made owing to delay being incurred in getting, or putting on, or taking a pilot out from a vessel.

XXIV.—The sanctioned pilotage charge is as follows:—

Draught in feet.	8	9	10	11	12	13	14	15	16
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	30	36	42	60	60	70	80	95	110

Draught in feet.	17	18	19	20	21	22	23
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	125	140	160	180	205	230	260

When the draught exceeds by more than six inches any depth here provided for, the next foot of draught shall be charged for.

For every foot, or part of a foot, exceeding six inches above 23 feet, an additional sum of Rs. 32 will be charged. Three-fourth rates will be charged for steamers and vessels towed by steam.

XXV.—In every case in which the services of a port pilot are not used, and the vessel is piloted by a person specially licensed to pilot in the Chittagong river, half the sanctioned charge for pilotage shall be paid.

XXVI.—All persons specially licensed to pilot in the Chittagong river shall be subject to the control of the Port Officer in regard to their pilotage work.

meeting, the Lieutenant-Governor confirms the said bye-laws and sanctions the penalties which have been provided by the Commissioners for their infringement:—

BYE-LAWS OF THE DOOMRAON MUNICIPALITY.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

1. Every person within whose premises any animal may die shall, within four hours after its death, or if death occurs at night, within two hours after daylight, either at his own expense, cause the carcass to be buried in the place set apart by the Commissioners for that purpose, or report its death to the Conservancy Overseer; and in such latter case shall pay to the said Overseer the expense of removing the carcass at such rate as the Commissioners may determine: provided that in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense; and such expense shall be recoverable as a debt due to the Commissioners. The Overseer when called upon shall not neglect to cause the carcass to be removed immediately or as soon as it is possible.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For the regulation and management of privies.

2. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier, shall give free access to the servants of the municipality, duly authorized by the Commissioners, to his house, lands, or premises for the removal of any night-soil or filth within such hours as shall be fixed by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

3. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated, shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

4. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, watercourse, river, tank, hollow, or excavation, or any place containing waste and stagnant water.

The penalty for infringement shall be a fine not exceeding Rs. 20.

5. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool into any river, tank, khal, watercourse, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

The penalty for infringement shall be a fine not exceeding Rs. 20.

6. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seems to them necessary for the preservation of health, or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants at cost price; and the price shall be recoverable as a debt due to the Commissioners.

7. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

For regulating traffic in the streets.

8. Every carriage plying in the streets after one hour after sunset shall carry a light or lights.

The penalty for infringement shall be a fine not exceeding Rs. 5.

General Bye-laws.

9. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemm, bamboo, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

The penalty for infringement shall be a fine not exceeding Rs. 5; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

10. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare; and the Commissioners shall have power to take down and alter any such spout now in existence and to recover the cost as a debt due to the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 5.

11. No person shall construct or place over or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 8 daily.

12. If any house, wall, or other erection, or any part thereof fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 5 daily.

13. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved of by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 2 daily.

14. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or watercourse, and the Commissioners may order the removal of any such obstruction on grounds of public health.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 4 daily.

15. The owner or occupier of any part of the bank of any nullah or watercourse shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners or any of their servants duly authorized to have access to such nullah or watercourse for any purpose of public conservancy.

The penalty for infringement shall be a fine not exceeding Rs. 10; the penalty for continued infringement after notice shall be a fine not exceeding Rs. 5 daily.

16. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

The penalty for infringement shall be a fine not exceeding Rs. 20.

17. No person shall throw, or cause to be thrown, into the river any corpse, or any part of a corpse (with the exception of such small portion as is required by the Shastras to be thrown into the river).

18. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in a burial ground, in a grave constructed of masonry, in such a manner that the top of the coffin, or where no coffin is used, the body, shall be at a less depth than five feet from the surface of the ground.

The penalty for infringement shall be a fine not exceeding Rs. 10.

19. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

The penalty for infringement shall be a fine not exceeding Rs. 10.

20. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any existing grave.

The penalty for infringement shall be a fine not exceeding Rs. 20.

21. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

22. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 20.

23. No person shall carry a corpse, or part of a corpse, through any highway unless it be decently covered, totally concealed from public view.

The penalty for infringement shall be a fine not exceeding Rs. 10.

24. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

25. No person shall be allowed to bathe or to wash in any water near a well, specially set apart for drinking purposes, within the limit of ten feet from such well.

The penalty for infringement shall be a fine not exceeding Rs. 5.

A. P. MACDONNELL,
Secretary to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 17th November 1884.—Under the powers conferred upon him by section 10 of the Land Improvement Loans Act, No. XIX of 1883, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following rules for the working of the Act:—

1. Loans under these rules will be made from such sums as the local Government may from time to time allot to the Board of Revenue.
2. Commissioners will submit, by the 15th October of each year, an estimate of the requirements for loans under the Act for each of the districts of their divisions for the ensuing financial year; and when orders thereon are received from Government and an allotment is made, the Board will distribute as funds are available. It will be in the power of Commissioners to divide the sum so allotted among the districts of their divisions at their discretion, and to transfer assignments from one district to another, but expenditure in the division must be kept within the amount assigned.
3. In these rules Collector has the meaning defined for it by the Act.
4. Subject to the provisions of these rules, the Collector may sanction loans not exceeding Rs. 1,000 for purposes specified in the Act, provided the district allotment must not be exceeded without the sanction of the Commissioner of the division. Loans exceeding Rs. 1,000 require the sanction of the Commissioner, and exceeding Rs. 5,000 the sanction of the Board. In such cases the Commissioner or the Board may call for such detailed plans and estimates, or for such professional opinion on the project, as may seem necessary.
5. Applications for loans may be presented to any revenue officer, of or above the rank of a Canoongoe or Sub-Deputy Collector, for transmission to the Collector.
6. The application shall be made in writing as nearly as possible in the annexed Form A.
7. The Collector shall either make a local enquiry himself, or cause one to be made by a revenue officer not below the rank of a Canoongoe or Sub-Deputy Collector, for the purpose of ascertaining the particulars mentioned on the reverse of form A.
8. (a) When the applicant's interest in the land to be improved is sufficient to cover the loan, no collateral security need be required. (b) When the sureties are a body of village residents who bind themselves jointly and severally as provided in section III of the

Act, their personal surety shall be sufficient. (c) In all cases not covered by clause (a) or clause (b) of this rule, immoveable property shall be hypothecated by the applicant as collateral security.

9. Repayment shall be by half-yearly instalments. The date of the first instalment shall not exceed two years from the date of the loan, and shall, in cases in which such a principle is applicable, be fixed with reference to the time when the improvement will begin to yield a return.

10. The date of the last instalment shall not ordinarily exceed ten years from the date of the loan, the amount of the instalments being fixed, in cases in which such a principle is applicable, with reference to the annual profit expected to accrue from the improvement. With the sanction of the Board of Revenue, the time for repayment may in special cases be extended to 20 years.

11. If the proposed improvements fall within the provisions of section 11, clause (2) of the Act, and the security offered is good and sufficient, the Collector may, on completion of the local enquiry, sanction the loan himself, if empowered to do so. Otherwise he shall forward the application with his report to his superior officer for disposal.

12. If the loan be sanctioned, the applicant shall be required to sign a certificate in the annexed Form B, and, when his interest in the land to be improved is not sufficient to cover the loan, to execute, together with his sureties, if any, a bond in the annexed Form C or Form D as the case may be.

13. A copy of the certificate shall be given to the applicant, and payment of the loan shall be made at the district or sub-divisional treasury on its presentation.

14. (a) The rate of interest shall be one anna in the rupee, or $6\frac{1}{2}$ per cent. per annum.

(b) But the local Government may for special reasons, and on special application through the Board of Revenue, sanction a loan at a lower rate of interest or without interest.

(c) If any instalment of principal or of interest, or of consolidated principal and interest, is not paid when it falls due, the Collector may, if he thinks fit, charge interest on it at any rate not exceeding $6\frac{1}{2}$ per cent. per annum from the date of its falling due to the date of payment.

15. The repayment of the loan shall be made in accordance with the table in annexed Form E, which shows the amount of equal half-yearly payments necessary to re-pay a loan advanced with interest at $6\frac{1}{2}$ per cent. per annum for any number of years from one to twenty.

16. The dates for payment of instalments shall usually be the dates fixed for payment of the land revenue.

17. Instalments may be suspended by order and at the discretion of the Collector on proof of failure of crops or other exceptional calamity. The Collector shall report the suspension through the Commissioner to the Board of Revenue, who shall pass such orders on the case as may seem proper.

18. The Collector shall make provision for the inspection from time to time of works undertaken under the Act. In all cases the work shall be inspected within one month after the expiration of the time within which completion was directed in the certificate.

19. If at any time it is proved to the satisfaction of the Collector that any part of the loan has been misapplied, he may, after recording in writing the grounds of his decision, and subject to the control of the superior revenue authorities, proceed to recover the whole amount of the loan with such interest as may have become due thereon.

20. When any portion of a loan made under these rules is found to be irrecoverable, a special report shall be made to the Board of Revenue.

21. The Board of Revenue shall regulate the forms of all returns, registers and accounts relating to loans under the Act.

NOTIFICATION.

The 11th November 1884.—It is hereby notified for general information that, in the exercise of the power conferred on him by section 38, Act IV (B.C.) of 1871, as amended by Act II (B.C.) of 1879 and Act I (B.C.) of 1884, the Lieutenant-Governor approves and confirms the following bye-laws, which have been framed for the town of Gurbetta, in the district of Midnapore, with the assent of the Health Officer of the town appointed under the Act for the management of all matters necessary for the due enforcement of the Act within the said town of Gurbetta.

BYE-LAWS UNDER SECTION 37, ACT IV (B.C.) OF 1871 FOR THE TOWN OF GURBETTA, IN THE DISTRICT OF MIDNAPORE.

PART I.

On the appointment and constitution of a Committee to aid in carrying out the provisions of Act IV (B.C.) of 1871 in the town of Gurbetta.

The provisions of this Act shall be carried out by a Committee consisting of three official and three non-official members appointed for that purpose by Government.

2. On the 1st of March in each year the Sub-Divisional Officer shall nominate the members to serve on the Committee during the ensuing official year, and shall report the nomination for the sanction of the local Government.

3. In the event of the death, removal, or resignation of any member of the Committee during his year of office, an official member shall be succeeded by the successor to his appointment or any other official; and in the case of a non-official member, his successor shall be appointed by the remainder of the Committee.

PART II.

Rules for the conduct of business.

4. The Committee shall meet for the transaction of business in the office of the local Sub-Registrar or Honorary Magistrate, who is the Chairman of the Committee, on the 15th of each month, or, if that date fall on a Sunday or holiday, on the next succeeding open day, provided that it shall be lawful for the Chairman to call a meeting at any other time during the month, recording his reasons for doing so.

5. Notice of every meeting shall be issued to the members by the Chairman three clear days beforehand.

6. No question shall be decided at any meeting unless its substance has been included in the notice prescribed in Rule 5.

7. Every question shall be decided by a majority of votes. In the event of an equal division, the Chairman shall have a casting vote.

8. The proceedings of every meeting shall be recorded in a book to be kept by the Chairman for the purpose.

PART III.

On the receipt and disbursement of moneys under the Act.

9. On the 15th October of each year a budget of the probable receipts and expenditure of the ensuing financial year, together with the opening and closing balances, shall be submitted to the Magistrate for the sanction of Government.

10. It shall be competent for the Committee, subject to the orders of Government, to transfer sums from one item of the budget to another, provided that the total expenditure be not exceeded, and provided that an annual review of the same be submitted to the Commissioner.

11. In forming every annual estimate an amount not exceeding Rs. 25 per cent. shall be reserved for emergent contingencies, such as a sudden outbreak of cholera and sickness, and necessity for employment of extra and special establishment.

12. At the close of every year the Chairman shall submit a report on the working of the Act during the year, showing the works of improvement and conservancy carried out and a detailed account of the receipts and expenditure during the year and the balance in hand at its close. The report should be submitted through the District Magistrate and the Commissioner to Government.

PART IV.

13. If any person shall carry night-soil or other offensive matter through the town otherwise than in a closely covered receptacle, he shall be liable to a fine not exceeding Rs. 5.

14. The Committee shall open a register of the sweepers engaging for various parts of the town, specifying the name or names of the sweepers engaging for each part and responsible for its cleanliness, and shall supply each sweeper with a metal ticket bearing his number painted on it, and the section of the town to which he is attached, the spots fixed under section 24 of the Act, in which they are bounded to deposit dirt, and any other detail that may seem necessary. Any sweeper neglecting to remove night-soil from any part of the quarter for which he is responsible once in twenty-four hours shall be liable for each omission to a fine not exceeding Rs. 1.

15. If any person shall bury, or allow to be buried, within the limits of the town of Gurbetta night-soil or other offensive matter, or leave it within the premises occupied by him beyond such time as may be fixed by the Magistrate, he shall be liable to a fine which may extend to Rs. 20, provided that this penalty shall not extend to manure heaps until notice to remove them have been issued by the Health Officer. The Chairman of the Committee may issue notice ordering any person to remove any offensive matter that may be buried on the premises occupied by him within a specific term. Any person neglecting to comply with such notice shall be liable to a daily fine not exceeding Rs. 2 from the date of the expiry of notice.

16. If any person shall dispose, or cause to be disposed of, within the limits of the town of Gurbetta any corpse, or part of a corpse, otherwise than by burning or burying it at or in some burning or burial ground, specially set apart for that purpose, fixed, by the Chairman of the Committee with the assent of the Health Officer, he shall be liable to a fine not exceeding Rs. 10.

17. Any person allowing land or premises occupied by him within the limits of the town of Gurbetta to be used as a camping place for cattle or carts or any beasts of draught or burden shall be bound to permit such premises to be inspected by the Health Officer or Chairman of the Committee, or any officer they may depute, and shall be liable to any penalty provided for any infringement of the laws or bye-laws committed on his premises.

18. Whoever shall offer for sale fish unfit for food, or shall offer for sale any fish in any part of the town except in places notified by the Magistrate, shall be liable to a fine not exceeding Rs. 10.

PART V.

Miscellaneous.

19. At each monthly meeting of the Committee one or more members shall be appointed to supervise the working of the Act during the calendar month next following.

20. The remarks and orders of the working member or members for each month, and the remarks of inspecting officers, shall be entered in the minute book prescribed in Rule 7.

21. Every lodging-house keeper taking out a license under this Act shall provide himself with a copy of the Act, and with a printed copy of the notice prescribed in section 14, which notice shall be in the form shown in appendix A of these bye-laws.

22. The register referred to in section 15 of the Act shall be in the form shown in appendix B of these bye-laws.

23. There shall be hung up in each compartment of a lodging-house a board on which shall be legibly written in Uriya, Hindustani, and Bengali the dimensions of such compartment and the number of lodgers it can properly accommodate, and this board shall bear the signature of the Health Officer.

24. Every lodging-house or hotel-keeper shall be bound, on requisition by the Health Officer, to provide himself with tickets or tokens bearing consecutive numbers, and to furnish each of his lodgers with one of such tickets or tokens.

25. For the purpose of this Act the year shall be considered to commence from 1st April, and all licenses shall run from that date.

NOTIFICATION.

The 31st October 1884.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following Port and Pilot rules for the Port of Chittagong. They will take effect from the 1st November 1884.

The Port of Chittagong, and the navigable river and channels leading thereto, having, with the sanction of the Governor-General of India in Council, been declared subject to the provisions of Act XXII of 1855, have become subject to Act XII of 1875 (the Indian Ports Act) in accordance with the provisions of section 3 of the latter Act.

The limits of the said Port of Chittagong are as follow:—

To the north-east,—a line drawn across the river Karnafulee from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south,—a line drawn from Jooldia flagstaff to Patunga beacon.

These limits include so much of the river Karnafulee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow:—

To the north-east,—the Port of Chittagong as above defined.

To the south,—a line drawn west from Norman's Point light-house.

To the north,—the port as defined above, and from Patunga beacon a line drawn due west seaward.

To the west,—a line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east,—the south bank of the Karnafulee river between Jooldia and Norman's Point light-house.

All parts of the river Karnafulee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

Port dues shall be levied at the following rates once in 60 days in the Port of Chittagong:—

Balam boats of 10 tons and upwards, 1 anna for every ton of burthen.

All other sea-going vessels of 10 tons and upwards, 4½ annas for every ton of burthen.

Port Rules.

The following Port Rules are hereby promulgated for general information and guidance:—

Rule I.—Within 24 hours after arrival within the limits of the port, the master should report to the Port Officer the arrival of his vessel, which shall be put into moorings or shall take up such berth as may be appointed by the Port Officer, from which she shall not be removed (except in case of emergency) without the sanction of the said officer. Every vessel shall change her berth when required by the Port Officer to do so.

Rule II.—Every vessel lying within the limits of the port shall be moored and shall keep a clear hawse.

Rule III.—Unless moored head and stern, no vessel within the port, or in the navigable channel leading thereto, shall lie close to the shore, or shall in any way obstruct the passage of boats.

Rule IV.—Every vessel in moorings shall use her bower chain for her stern moorings, or such other chain that may be approved of by the Port Officer, who, in case of approaching bad weather, may have the same changed or doubled at his discretion.

Rule V.—Every vessel within the port shall rig in her jib and driver booms, and, if required to do so, take in all boats hanging at the davit as soon as she has moored, and shall so retain them, unless otherwise authorized by the Port Officer.

Rule VI.—Every vessel entering the port between the 15th day of May and 15th day of November shall send down her top-gallant yards, and have mast ropes rove ready to send down her top-gallant masts at short notice on receiving instructions from the Port Officer.

Rule VII.—No ballast shall be discharged from ship-board, or landed from boats, or taken from the shore or river banks within the port and its approaches without the previous sanction of the Port Officer, who may appoint ballast guards to supervise the work.

Rule VIII.—Vessels of less than 12 feet draught, proceeding up or down the river, are prohibited from anchoring in the fairway.

Rule IX.—All vessels anchored in the stream within the port and its approaches shall exhibit between sunset and sunrise, where it can be best seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform and unbroken light, visible all round the horizon, at a distance of one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade Regulations.

Rule X.—All ballasts, cargo-boats, bhurs, and budgeows, when under weigh after dark within the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen.

Rule XI.—Except in cases of emergency, no vessel shall be moored, or unmoored, and no hawsers and warps shall be left out between sunset and daybreak.

Rule XII.—Vessels fouling buoys, tide-gauges, or any other plant of the port, shall report the same to the Port Officer in writing without delay, stating the time and manner of occurrence. Violation of this rule will render the master of the vessel liable to a penalty not exceeding Rs. 100.

Rule XIII.—Every vessel of a draught of 12 feet and under shall anchor on the shoal side of the river, or, off town, from below the pier on the south side of the river, and from Goshaldanga to Domacolly on the eastern side of the river, and below Domacolly to Gophtacolly on the northern side of the river, and keep in a line so as not to obstruct the navigation of the river in any way. Vessels will also keep on board a crew not less than the following scale according to their tonnage set forth below, viz.—

	Men.
Vessels of 100 tons and under	...
" of 100 to 199 tons	...
" of 200 " 299 "	...
" of 300 " 499 "	...
" of 500 " 699 "	...
" of 700 and upwards	...

Rule XIV.—Vessels shall not anchor in fairway off the bar, or on the bar, and any vessel so anchoring shall be liable to a fine not exceeding Rs. 100 for every day or portion of a day on which she may remain in the fairway or on the bar.

Rule XV.—No vessel dropping up or down the river shall anchor in the fairway unless she be of heavy draught or of great length. Any vessel on the move or waiting the next tide shall sheer out of the channel and anchor as far out of the fairway as she can do without risk.

Rule XVI.—Vessels occupying moorings or using the heave-up boat will be subject to the undermentioned charges:—

	Rs.
Occupying moorings, per diem ...	6
Occupying swinging buoys ...	3
For mooring at or unmooring from the fixed fore-and-aft moorings with the use of heave-up boat on each occasion ...	16
For mooring at or unmooring from swinging moorings with the use of heave-up boat on each occasion ...	10
Harbour Master's fee for mooring or unmooring a vessel on Sundays and holidays ...	10
Use of heave-up boat for assisting a vessel, per diem ...	32
Running out anchors for vessels on shore, or going on the hard, to clear bottom on each occasion ...	32
Use of Government hawser, per diem ...	10
Shifting a vessel's berth for the convenience of the owners ...	16
Vessels occupying the jetty head for loading or discharging cargo other than salt, per diem ...	20
Vessels occupying the jetty head for loading or discharging salt, per thousand maunds ...	10
Salvage on anchors and cables, per cwt. ...	3-8

Rule XVII.—No person, unless authorized by the Port Officer, shall creep or sweep within the port for anchors, cables, or other stores lost, or supposed to be lost, therein.

Rule XVIII.—Any sampan, cargo-boat, or other vessel going alongside an arriving steam-vessel before she is anchored, shall be liable to a penalty not exceeding Rs. 100.

Rule XIX.—The Port Officer, or any one deputed by him, shall not be interfered with in the execution of his duty.

Rule XX.—No vessel shall use any of the moorings, whether fixed or swinging, without permission of the Port Officer.

Rule XXI.—All applications to be hauled into, or cast off from, the moorings, or for any other assistance, shall be made either personally or by letter to the Port Officer. Applications will, as far as possible, be complied with in order according to date of receipt.

Rule XXII.—Storm signals will be only used within the limits of the Port of Chittagong to give notice to the shipping and general public of the early approach of a severe cyclone with its attendant storm-wave. The following are the storm signals which will be used within the limits of the port. They will be hoisted on the flagstaff yard-arm at Sudder ghât and on the Joodia flagstaff yard-arm on receipt of instructions from the Meteorological office.

A ball indicates that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

1. Day warning signal.

A drum indicates that a severe cyclone with its attendant storm-wave is approaching Chittagong.

2. Day danger signal.

Three lights in a vertical plain indicate that a severe cyclone, of which the centre is in the neighbourhood of Akyab, will probably advance towards Chittagong.

3. Night warning signal.

Two lights in a vertical line indicate the early approach of a severe cyclonic storm and its attendant storm-wave to the Port of Chittagong.

4. Night danger signal.

Rule XXIII.—Vessels lying in the stream or at the moorings shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go. Vessels with no spare hawser pipe for cables shall have a good hawser bent ready for letting go.

Rule XXIV.—Every ship or vessel within the port shall remove any anchor or spar, or other object projecting from her side, when ordered to do so.

Rule XXV.—No person shall smoke or use naked lights of any description in the hold or between-decks of any vessel lying in the port. Closed lanterns secured by lock and key, and in charge of an officer of the vessel, shall alone be taken between-decks or into the hold.

Rule XXVI.—Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept alight only between daybreak and 9 p.m. Fires for cooking shall not be allowed on board of vessels in dock.

Rule XXVII.—With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600; provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of such buckets shall be left constantly hung up on the quarter-deck or other convenient place.

Rule XXVIII.—When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force-pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

Rule XXIX.—No vessel shall lie at single anchor in the port unless a pilot or assistant harbour master is on board; and a fee of Rs. 10 per diem will be charged for his services.

Rule XXX.—All vessels about to leave the port shall hoist the Blue-Peter at the fore at least twenty-four hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

Rule XXXI.—No vessel shall steam, sail, or be towed up on the flood or down on the ebb within port limits except with the permission of the Port Officer.

Rule XXXII.—River steamers and tug steamers having no vessels in tow are permitted to move up on the flood, or down on the ebb, at their own risk and at a speed sufficient to keep the vessels under command; but in no case shall the speed exceed four miles an hour through the water.

Rule XXXIII.—For the use of the Government Launch Fire-engine, a charge of Rs. 50 will be made for every twelve hours and part thereof.

Rules for Pilots in the Port of Chittagong.

I.—Pilots in charge of inward-bound vessels are directed to hoist the vessel's number, and, if not laden or from dutiable ports, are to have the number hoisted on the main-mast head for the information of the Customs Inspector, Jaldia.

II.—A pilot on taking charge of an inward-bound vessel shall, immediately on boarding her, hoist his distinguishing number, and hand over to the master of the vessel the following papers:—(1) Port Rules, (2) Pilotage Rules, (3) Medical Inspection Rules, (4) Customs Regulations. If any case of cholera, small-pox, or other epidemic disease common in India is on board he shall at once report the fact to the Port Officer, stating the number of cases, and shall await orders before taking up any anchorage in the harbour.

III.—A pilot detained on board at Jaldia will, in the event of the captain refusing to take steam, report the matter to the Port Officer and await orders.

IV.—The pilot shall not give over charge of his vessel in the river unless she has been moored or he has been relieved by a harbour master or other officer authorised to take charge.

V.—Pilots on arrival off town shall state the time of arrival, the vessel's name, the place where she has been left, and, if moored, with how much chain each way. This information is to be entered in a book kept at the Port Office for that purpose.

VI.—Every pilot shall on arrival report to the Port Officer the number of pilots on the station, and also any alterations he may have observed in the river on his way up.

VII.—No pilot shall take charge of an outward-bound vessel without an order signed by the Port Officer, or proceed unless the vessel has obtained her customs clearance. If the vessel is to take steam, he should not break ground without satisfying himself that the tug is engaged to take the vessel to sea, or to remain by her till the vessel is outside the Outer Bar.

VIII.—The pilot shall ascertain that the vessel has two serviceable lower anchors, and if she has not a sheet or spare anchor fit for a bower over her side, that she has one in such a position on deck that it can easily be brought into use in case of necessity. Also that a kedge with line ready bent be on deck and ready for immediate use.

IX.—If a pilot appointed to take a vessel to sea during neaps considers her draught too much, and that it would involve a risk and responsibility which he is unwilling to take, he should at once communicate the fact to the master and report to the Port Officer, for orders, fully explaining his grounds of objection.

X.—If after a pilot joins a vessel he finds that she is of larger draught than she was reported to be, or that she takes in any cargo that alters her draught, he will at once report the matter to the Port Officer and await orders.

XI.—Pilots are on no account to cross the bar between sunset and sunrise, on pain of dismissal, without the permission of the Port Officer in writing, the cost of lighting the buoys being defrayed by the ship concerned.

XII.—A pilot shall not relinquish charge of a vessel unless on account of sickness or other unavoidable necessity. If he is in any way impeded in the performance of his duty, he should report the circumstances to the Port Officer, and, if necessary, anchor the vessel.

XIII.—Pilots shall attend the Port Office daily, and shall not leave town without permission from Port Officer being previously obtained.

XIV.—Until further orders, pilots shall be guided by the following rules as to the draughts

of vessels to be moved either up or down, in or out:—

- (a)—They may move a vessel in or out without steam at a draught of 18 feet, and with steam to any reasonable draught.
 (b)—Vessels of 75 feet length and upwards shall not be brought up above Moiscally without permission from Port Officer, to whom her length and draught must be reported in writing.

XV.—No pilot on his way up or down the river, and not employed on any special duty, shall pass a vessel having a pilot signal flying without boarding her and ascertaining why she is without a pilot, and if required shall take charge of her, and take her on her way and stop by her until she can be left in safety.

XVI.—Masters are requested to report when there appears to have been any unnecessary delay in getting the pilot on board.

XVII.—If a vessel loses an anchor or anchors, the pilot shall immediately submit a report to the Port Office. The report should be attested by the master of the vessel, and to enable the Port Officer's Department to identify the lost articles, it shall indicate accurately the following particulars:—

- (1)—Locality of the loss
- (2)—Bearings of known objects.
- (3)—Description, weight, and distinctive marks of anchors.
- (4)—Description and quantity of cable.

XVIII.—Should a vessel ground, collide with any vessel or buoy, or meet with any casualty while under weigh or at anchor, the pilot shall, on the first opportunity, forward to the Port Officer a report in writing of the occurrence, containing the following particulars:—

- (a)—Locality of the accident
- (b)—Bearings of any known object in view.
- (c)—The vessel's draught of water.
- (d)—The time of tide.
- (e)—Hour of the day the accident occurred.
- (f)—Manoeuvre the pilot was executing or attempting to execute.
- (g)—The damage, if any, sustained
- (h)—The time the vessel was on shore.
- (i)—Quantity of water made by the vessel

XIX.—Pilots, before leaving a vessel, shall obtain a certificate from the master as to how he has performed his duty, and present the same to the Port Officer on arrival.

XX.—Pilots, whilst in town, should daily inspect carefully the channel and the river-book kept at the Port Office.

XXI.—If the pilot considers himself aggrieved by any conduct on the part of the master of a vessel, he shall transmit his complaint in writing to the Port Officer for his consideration and orders.

XXII.—Masters or agents are requested to give at least 24 hours' previous notice when a pilot is required to shift or take a vessel to sea or for any other purpose, to enable the Port Officer to send for pilots from the mouth of the river, if required.

XXIII.—The cutter with pilots shall cruise in the day backwards and forwards from the Outer Bar buoys to off the mouth of the Sangoo river during the south-west monsoon, weather permitting, and shall remain day and night on her station, viz. three miles outside the Bar buoys during the north east monsoon. The senior pilot on board will be held responsible should any complaint be made owing to delay being incurred in getting, or putting on, or taking a pilot out from a vessel.

XXIV.—The sanctioned pilotage charge is as follows:—

Draught in feet.	8	9	10	11	12	13	14	15	16
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	30	30	42	50	60	70	80	95	110

Draught in feet.	17	18	19	20	21	22	23
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
In or out	125	140	160	180	205	230	280

When the draught exceeds by more than six inches any depth here provided for, the next foot of draught shall be charged for.

For every foot, or part of a foot, exceeding six inches above 23 feet, an additional sum of Rs. 32 will be charged. Three-fourth rates will be charged for steamers and vessels towed by steam.

XXV.—In every case in which the services of a port pilot are not used, and the vessel is piloted by a person specially licensed to pilot in the Chittagong river, half the sanctioned charge for pilotage shall be paid.

XXVI.—All persons specially licensed to pilot in the Chittagong river shall be subject to the control of the Port Officer in regard to their pilotage work.

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

NOTIFICATION.

The 17th November 1884.—Under the powers conferred upon him by section 10 of the Land Improvement Loans Act, No. XIX of 1883, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following rules for the working of the Act:—

1. Loans under these rules will be made from such sums as the local Government may from time to time allot to the Board of Revenue.
2. Commissioners will submit, by the 15th October of each year, an estimate of the requirements for loans under the Act for each of the districts of their divisions for the ensuing financial year; and when orders thereon are received from Government and an allotment is made, the Board will distribute as funds are available. It will be in the power of Commissioners to divide the sum so allotted among the districts of their divisions at their discretion, and to transfer assignments from one district to another, but expenditure in the division must be kept within the amount assigned.
3. In these rules Collector has the meaning defined for it by the Act.
4. Subject to the provisions of these rules, the Collector may sanction loans not exceeding Rs. 1,000 for purposes specified in the Act, provided the district allotment must not be exceeded without the sanction of the Commissioner of the division. Loans exceeding Rs. 1,000 require the sanction of the Commissioner, and exceeding Rs. 5,000 the sanction of the Board. In such cases the Commissioner or the Board may call for such detailed plans and estimates, or for such professional opinion on the project, as may seem necessary.
5. Applications for loans may be presented to any revenue officer, of or above the rank of a Canongoe or Sub-Deputy Collector, for transmission to the Collector.
6. The application shall be made in writing as nearly as possible in the annexed Form A.

7. The Collector shall either make a local enquiry himself, or cause one to be made by a revenue officer not below the rank of a Cancongoe or Sub-Deputy Collector, for the purpose of ascertaining the particulars mentioned on the reverse of form A.

8. (a) When the applicant's interest in the land to be improved is sufficient to cover the loan, no collateral security need be required. (b) When the sureties are a body of village residents who bind themselves jointly and severally as provided in section 9 of the Act, their personal surety shall be sufficient. (c) In all cases not covered by clause (a) or clause (b) of this rule, immoveable property shall be hypothecated by the applicant as collateral security.

9. Repayment shall be by half-yearly instalments. The date of the first instalment shall not exceed two years from the date of the loan, and shall, in cases in which such a principle is applicable, be fixed with reference to the time when the improvement will begin to yield a return.

10. The date of the last instalment shall not ordinarily exceed ten years from the date of the loan, the amount of the instalments being fixed, in cases in which such a principle is applicable, with reference to the annual profit expected to accrue from the improvement. With the sanction of the Board of Revenue, the time for repayment may in special cases be extended to 20 years.

11. If the proposed improvements fall within the provisions of section 11, clause (2) of the Act, and the security offered is good and sufficient, the Collector may, on completion of the local enquiry, sanction the loan himself, if empowered to do so. Otherwise he shall forward the application with his report to his superior officer for disposal.

12. If the loan be sanctioned, the applicant shall be required to sign a certificate in the annexed Form B, and, when his interest in the land to be improved is not sufficient to cover the loan, to execute, together with his sureties, if any, a bond in the annexed Form C or Form D as the case may be.

13. A copy of the certificate shall be given to the applicant, and payment of the loan shall be made at the district or sub-divisional treasury on its presentation.

14. (a) The rate of interest shall be one anna in the rupee, or $6\frac{1}{2}$ per cent. per annum.

(b) But the local Government may for special reasons, and on special application through the Board of Revenue, sanction a loan at a lower rate of interest or without interest.

(c) If any instalment of principal or of interest, or of consolidated principal and interest, is not paid when it falls due, the Collector may, if he thinks fit, charge interest on it at any rate not exceeding $6\frac{1}{2}$ per cent. per annum from the date of its falling due to the date of payment.

15. The repayment of the loan shall be made in accordance with the table in annexed Form E, which shows the amount of equal half-yearly payments necessary to re-pay a loan advanced with interest at $6\frac{1}{2}$ per cent. per annum for any number of years from one to twenty.

16. The dates for payment of instalments shall usually be the dates fixed for payment of the land revenue.

17. Instalments may be suspended by order and at the discretion of the Collector on proof of failure of crops or other exceptional calamity. The Collector shall report the suspension through the Commissioner to the Board of Revenue, who shall pass such orders on the case as may seem proper.

18. The Collector shall make provision for the inspection from time to time of works undertaken under the Act. In all cases the work shall be inspected within one month after the expiration of the time within which completion was directed in the certificate.

19. If at any time it is proved to the satisfaction of the Collector that any part of the loan has been misapplied, he may, after recording in writing the grounds of his decision, and subject to the control of the superior revenue authorities, proceed to recover the whole amount of the loan with such interest as may have become due thereon.

20. When any portion of a loan made under these rules is found to be irrecoverable, a special report shall be made to the Board of Revenue.

21. The Board of Revenue shall regulate the forms of all returns, registers and accounts relating to loans under the Act.

NOTIFICATION.

The 11th November 1884.—It is hereby notified for general information that, in the exercise of the power conferred on him by section 38, Act IV (B.C.) of 1871, as amended by Act I (B.C.) of 1879 and Act I (B.C.) of 1884, the Lieutenant-Governor approves and confirms the following bye-laws, which have been framed for the town of Gurbetta, in the district of Midnapore, with the assent of the Health Officer of the town appointed under the Act for the management of all matters necessary for the due enforcement of the Act within the said town of Gurbetta.

BYE-LAWS UNDER SECTION 37, ACT IV (B.C.) OF 1871 FOR THE TOWN OF GURBETTA, IN THE DISTRICT OF MIDNAPORE.

PART I.

On the appointment and constitution of a Committee to aid in carrying out the provisions of Act IV (B.C.) of 1871 in the town of Gurbetta.

THE provisions of this Act shall be carried out by a Committee consisting of three official and three non-official members appointed for that purpose by Government.

2. On the 1st of March in each year the Sub-Divisional Officer shall nominate the members to serve on the Committee during the ensuing official year, and shall report the nomination for the sanction of the local Government.

3. In the event of the death, removal, or resignation of any member of the Committee during his year of office, an official member shall be succeeded by the successor to his appointment or any other official; and in the case of a non-official member, his successor shall be appointed by the remainder of the Committee.

PART II.

Rules for the conduct of business.

4. The Committee shall meet for the transaction of business in the office of the local Sub-Registrar or Honorary Magistrate, who is the Chairman of the Committee, on the 15th of each month, or, if that day fall on a Sunday or holiday, on the next succeeding open day provided that it shall be lawful for the Chairman to call a meeting at any other time during the month, recording his reasons for doing so.

5. Notice of every meeting shall be issued to the members by the Chairman three clear days beforehand.

6. No question shall be decided at any meeting unless its substance has been included in the notice prescribed in Rule 5.

7. Every question shall be decided by a majority of votes. In the event of an equal division, the Chairman shall have a casting vote.

8. The proceedings of every meeting shall be recorded in a book to be kept by the Chairman for the purpose.

PART III.

On the receipt and disbursement of moneys under the Act.

9. On the 15th October of each year a budget of the probable receipts and expenditure of the ensuing financial year, together with the opening and closing balances, shall be submitted to the Magistrate for the sanction of Government.

10. It shall be competent for the Committee, subject to the orders of Government, to transfer sums from one item of the budget to another, provided that the total expenditure be not exceeded, and provided that an annual review of the same be submitted to the Commissioner.

11. In forming every annual estimate an amount not exceeding Rs. 25 per cent. shall be reserved for emergent contingencies, such as a sudden outbreak of cholera and sickness, and necessity for employment of extra and special establishment.

12. At the close of every year the Chairman shall submit a report on the working of the Act during the year, showing the works of improvement and conservancy carried out and a detailed account of the receipts and expenditure during the year and the balance in hand at its close. The report should be submitted through the District Magistrate and the Commissioner to Government.

PART IV.

13. Any person shall carry night-soil or other offensive matter through the town otherwise than in a closely covered receptacle, he shall be liable to a fine not exceeding Rs. 5.

14. The Committee shall open a register of the sweepers engaging for various parts of the town, specifying the name or names of the sweepers engaging for each part and responsible for its cleanliness, and shall supply each sweeper with a metal ticket bearing his number painted on it, and the section of the town to which he is attached, the spots fixed under section 24 of the Act, in which they are bound to deposit dirt, and any other detail that may seem necessary. Any sweeper neglecting to remove night-soil from any part of the quarter for which he is responsible once in twenty-four hours shall be liable for each omission to a fine not exceeding Rs. 1.

15. If any person shall bury, or allow to be buried, within the limits of the town of Gurbetta night-soil or other offensive matter, or leave it within the premises occupied by him beyond such time as may be fixed by the Magistrate, he shall be liable to a fine which may extend to Rs. 20, provided that this penalty shall not extend to manure heaps until notice to remove them have been issued by the Health Officer. The Chairman of the Committee may issue notice ordering any person to remove any offensive matter that may be buried on the premises occupied by him within a specific term. Any person neglecting to comply with such notice shall be liable to a daily fine not exceeding Rs. 2 from the date of the expiry of notice.

16. If any person shall dispose, or cause to be disposed of, within the limits of the town of Gurbetta any corpse, or part of a corpse, otherwise than by burning or burying it at or in some burning or burial ground, specially set apart for that purpose, fixed, by the Chairman of the Committee with the assent of the Health Officer, he shall be liable to a fine not exceeding Rs. 10.

17. Any person allowing land or premises occupied by him within the limits of the town of Gurbetta to be used as a camping place for cattle or carts or any beasts of draught or burden shall be bound to permit such premises to be inspected by the Health Officer or Chairman of the Committee, or any officer they may depute, and shall be liable to any penalty provided for any infringement of the laws or bye-laws committed on his premises.

18. Whoever shall offer for sale fish unfit for food, or shall offer for sale any fish in any part of the town except in places notified by the Magistrate, shall be liable to a fine not exceeding Rs. 10.

PART V.

Miscellaneous.

19. At each monthly meeting of the Committee one or more members shall be appointed to supervise the working of the Act during the calendar month next following.

20. The remarks and orders of the working member or members for each month, and the remarks of inspecting officers, shall be entered in the minute book prescribed in Rule 7.

21. Every lodging-house keeper taking out a license under this Act shall provide himself with a copy of the Act, and with a printed copy of the notice prescribed in section 14, which notice shall be in the form shown in appendix A of these bye-laws.

22. The register referred to in section 15 of the Act shall be in the form shown in appendix B of these bye-laws.

23. There shall be hung up in each compartment of a lodging-house a board on which shall be legibly written in Uriya, Hindustani, and Bengali the dimensions of such compartment and the number of lodgers it can properly accommodate, and this board shall bear the signature of the Health Officer.

24. Every lodging-house or hotel-keeper shall be bound, on requisition by the Health Officer, to provide himself with tickets or tokens bearing consecutive numbers, and to furnish each of his lodgers with one of such tickets or tokens.

25. For the purpose of this Act the year shall be considered to commence from 1st April, and all licenses shall run from that date.

At the end of the paragraph insert—

VIII. The number of copyists licensed should not be greater than will admit, under ordinary circumstances, of each vernacular copyist earning at least Rs. 12, and of each English copyist earning at least Rs. 20 per month. Each copyist is to keep a register showing his receipts, which he is to submit once a month to the Magistrate, who will thus be enabled to regulate the establishment of copyists and to reduce the number, if required, with reference to the provisions of the preceding rule. The Magistrate may, under pressure of work, depute to his head clerk the duty of examining these registers; but he is under no circumstance to omit doing so himself at least once a quarter, and a certificate of his inspection of these books is always to be inserted in the annual report.

"The number of copyists in each office must be so reduced as to bring the earnings of each at least up to the prescribed minimum. No copyists shall be employed, or, if already employed, retained in employment, whose work is carelessly performed or whose handwriting is illegible or difficult to decipher. The copying departments should, where practicable at the head-quarters of a district, be amalgamated into a single separate department of which the salaried examining clerk shall be the chief ministerial officer. All the copying work required by the several Magistrates' Courts at head-quarters should be done by the District Magistrates' Copying Department."

IX. A fee of 8 annas shall be charged for searching. This fee shall be levied by means of a court fee stamp, to be affixed to all applications for information or for copies, except such copies as the law requires to be given free of cost. The stamp shall, in the case of applications for copies in form B, be in addition to the one-anna stamp required, under article 1 (a), schedule II of the Court-fees Act VII of 1870, on such applications. In the case of applications for information, the searching fee shall be the only fee required to be affixed to form A.

"A fee of 4 annas shall be charged for searching for all documents of which copies are applied for, whether certified* or uncertified. This fee shall be levied by means of a court-fee stamp to be affixed to all applications for information or copies, except such copies as the law requires to be given free of cost. The stamp shall, in the case of applications for copies in Form B, be, in addition to the one-anna stamp required under Article I (a), Schedule II of the Court-fees Act VII of 1870, on such applications. In the case of applications for information, the searching fee shall be the only fee required to be affixed to Form A. One searching fee only shall be charged for any number of copies taken from the same record and included in the same application. No searching fee shall be charged in respect of copies of papers which have not been deposited on the rack of the record-room."

* Vide Section LXIII of Act I of 1872 (The Indian Evidence Act.)

Charges for Authenticated and Unauthenticated Copies.

(a) In all Criminal Courts, a uniform charge shall be made for the preparation of copies, whether authenticated or unauthenticated, at the rate of four annas per folio. This term, it is to be carefully explained to all subordinate officers, merely denominates a certain quantity of manuscript; the folio to consist of 150 words English, or 300 words Vernacular, four figures counting as one word.

(c) All copies, whether authenticated or unauthenticated, must in future, before issue, be examined by a salaried officer. The copies themselves will in all cases be made by section-writers, who will be remunerated at the rate of two annas per folio.

(f) To protect the interests of the Government, care must be taken to see that no copies issue from the Courts which are not prepared on the prescribed stamp paper, which must be written on one side of the sheet only, and not contain more than the authorized number of words. On the other hand, care must be taken to see that applicants are not imposed upon by the copyists spreading their writing over a larger number of sheets than is necessary. By insisting on the number of lines in each sheet being uniform, control may easily be exercised in this matter, the number of words in a few of the lines in each folio being checked. The business of a copyist is (like most other occupations) one calling for skill, and greatly dependent for its successful practice in experience. Copyists, therefore, must possess or acquire skill in their business, or they ought not to be retained.

(i) In the cases of authenticated copies, the Court-fee chargeable under the Court-fees Act should be levied by affixing the necessary stamp to the first folio of the copy.

Instructions.—The final result of trial as regards each person will determine the "head of offence" under which he is to be entered. When an accused is tried under more than one "head of offence," he should be exhibited under the principal one only, unless he happens to be accused of entirely distinct offences supported by separate evidence, in which case the trials would be separate and the results independent.

In the column for remarks against the name of each accused, a note should be made stating (1) whether the accused applied to the High Court for an order under Section 456 of the Code; (2) whether he applied to the High Court under Section 526 of the Code for the transfer of their cases; and (3) the class of officer (Magistrate or Sessions Judge) who disposed of the case, and whether or not they were European British Subjects.

The district or province, from or to which the cases of the persons entered in columns 7 and 9 were transferred, should also be noted in the column for remarks.

Distinctive marks should be made—

In column 5, to show the number of persons who applied under section 2, Act III of 1881, for transfer or committal of their cases.

In columns 12 to 15 and 18 to 22, to show the number who claimed to be tried (1) by a mixed Jury, section 451A (1) of the Code, or (2) by a mixed number of Assessors, Section 451 (2).

CRIMINAL.

Rule No. 12, dated the 15th September 1884.

Complaints should be received at a fixed hour each day, and should be immediately numbered in the order of their receipt. They should then be entered in a book to be kept in the form annexed. This book should be kept under the special control of the Magistrate himself.

For Rule 2, Chapter III, page 77 of the Criminal Rules and Orders (1883), substitute the following:—

Complaints should be received daily at a fixed hour either at the commencement or at the close of the day's sitting, and should be immediately numbered in the order of their receipt. They should be entered in the language employed by the presiding Magistrate in recording evidence in a book to be kept in the form annexed. The entries should be made immediately after the receipt of the complaints, if complaints are received in the morning, or, if complaints are received in the evening, the first thing on the following morning, and the entries should be signed by the Magistrate as soon as they are made. When a case is made over for trial to another Officer, an entry to this effect should be made in the column for remarks. All Officers or Benches of Magistrates receiving cases on transfer should maintain similar registers, in which every case so received should at once be entered, the entry being signed by the presiding Magistrate.

Rule No. 8, dated the 28th July 1884.

At page 53, Chapter III of the General Rules and Circular Orders, Civil, after Rule 51 insert the following:—

The remittances to the Treasury at the close of each day, as well as the particulars of each payment to the public, must be entered in column 3 of the form of pass-book No. 14. To facilitate the calculation of the amount to be remitted to the Treasury at the close of each day's business, two lines are provided in the form, one to show the total of receipts and payments at the Court, and the other the total for the day according to the receipt and payment sides. The receipts and payments at the Court being first entered and added up, the difference between the total of receipts and that of payments will, if the receipts exceed the payments, be entered on the left side as remittance to the Treasury, or, if the payments exceed the receipts, on the right side as remittance from the Treasury. The total for the day will then be made up for both sides, which will agree together. The number of the chalan or payment order, on the back of which the amount to be remitted to, or received from, the Treasury is noted, may be shown against the entry made below the total of payments or receipts, but the head of account need not be noted in the Pass-book against the entries, nor need the entries be initialed by the Treasury Officer.

CIVIL.

Rule No. 9, dated the 18th August 1884.

In Chapter I, Rule 9, after clause (d) read—

Clause (dd).—In any case in which a commission has issued to a Court as provided in clause (c) and has been canceled before execution, it is at the discretion of the Court issuing the commission, under the authority vested in it by the Government of India in Financial Resolution No. 1702, dated 20th June 1884, to allow a refund of the amount of the Commissioner's fees paid in Court-fee stamps. The fees so refunded shall be the additional fees prescribed in clause (b) for each witness.

Clause (ddd).—All applications for refunds, whether under clause (d) or under clause (dd), must be made within three years of the time when the right to the refund accrues. Applications made after the expiry of three years cannot be granted.

CIVIL.

Rule No. 10, dated the 21st August 1884.

2. The periods for which the trial notes shall be preserved entire shall be as follows:—

(a). In suits for rent, in which a question of right to enhance or vary the rent of a ryot, or tenant, or any question relating to a title to land or to some interest in land, or between parties having conflicting claims thereto, has not been determined by the judgment, in suits for money or damages, or for the specific performance of contracts relating to moveable property or for the recovery of moveable property, three years.

After clause (b), paragraph 2 of Rule No. 12A, in Chapter IV, add—

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A promissory note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 400 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,800 per chest, Rs. 300 per chest.
On bids of Rs. 1,800 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3.30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1.30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 p.m. of the fifth day following the day of sale, or 1-30 p.m. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 p.m. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 p.m.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bona fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter of question arising out of the sale of the opium included in this notification, or adjustment of the amount thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazepore factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazepore factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazepore factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

NOTIFICATION.

The 17th November 1884.—Under the powers conferred upon him by section 10 of the Land Improvement Loans Act, No. XIX of 1883, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to make the following rules for the working of the Act:—

1. Loans under these rules will be made from such sums as the local Government may from time to time allot to the Board of Revenue.

2. Commissioners will submit, by the 15th October of each year, an estimate of the requirements for loans under the Act for each of the districts of their divisions for the ensuing financial year; and when orders thereon are received from Government and an allotment is made, the Board will distribute as funds are available. It will be in the power of Commissioners to divide the sum so allotted among the districts of their divisions at their discretion, and to transfer assignments from one district to another, but expenditure in the division must be kept within the amount assigned.

3. In these rules Collector has the meaning defined for it by the Act.

4. Subject to the provisions of these rules, the Collector may sanction loans not exceeding Rs. 1,000 for purposes specified in the Act, provided the district allotment must not be exceeded without the sanction of the Commissioner of the division. Loans exceeding Rs. 1,000 require the sanction of the Commissioner, and exceeding Rs. 5,000 the sanction of the Board. In such cases the Commissioner or the Board may call for such detailed plans and estimates, or for such professional opinion on the project, as may seem necessary.

5. Applications for loans may be presented to any revenue officer, of or above the rank of a Canongos or Sub-Deputy Collector, for transmission to the Collector.

6. The application shall be made in writing as nearly as possible in the annexed form.

7. The Collector shall either make a local enquiry himself, or cause one to be made by a revenue officer not below the rank of a Canoongoe or Sub-Deputy Collector, for the purpose of ascertaining the particulars mentioned on the reverse of form A.

8. (a) When the applicant's interest in the land to be improved is sufficient to cover the loan, no collateral security need be required. (b) When the sureties are a body of village residents who bind themselves jointly and severally as provided in section 9 of the Act, their personal surety shall be sufficient. (c) In all cases not covered by clause (a) or clause (b) of this rule, immoveable property shall be hypothecated by the applicant as collateral security.

9. Repayment shall be by half-yearly instalments. The date of the first instalment shall not exceed two years from the date of the loan, and shall, in cases in which such a principle is applicable, be fixed with reference to the time when the improvement will begin to yield a return.

10. The date of the last instalment shall not ordinarily exceed ten years from the date of the loan, the amount of the instalments being fixed, in cases in which such a principle is applicable, with reference to the annual profit expected to accrue from the improvement. With the sanction of the Board of Revenue, the time for repayment may in special cases be extended to 20 years.

11. If the proposed improvements fall within the provisions of section 11, clause (2) of the Act, and the security offered is good and sufficient, the Collector may, on completion of the local enquiry, sanction the loan himself, if empowered to do so. Otherwise he shall forward the application with his report to his superior officer for disposal.

12. If the loan be sanctioned, the applicant shall be required to sign a certificate in the annexed Form B, and, when his interest in the land to be improved is not sufficient to cover the loan, to execute, together with his sureties, if any, a bond in the annexed Form C or Form D as the case may be.

13. A copy of the certificate shall be given to the applicant, and payment of the loan shall be made at the district or sub-divisional treasury on its presentation.

14. (a) The rate of interest shall be one anna in the rupee, or $6\frac{1}{4}$ per cent. per annum.

(b) But the local Government may for special reasons, and on special application through the Board of Revenue, sanction a loan at a lower rate of interest or without interest.

(c) If any instalment of principal or of interest, or of consolidated principal and interest, is not paid when it falls due, the Collector may, if he thinks fit, charge interest on it at any rate not exceeding $6\frac{1}{4}$ per cent. per annum from the date of its falling due to the date of payment.

15. The repayment of the loan shall be made in accordance with the table in annexed Form E, which shows the amount of equal half-yearly payments necessary to re-pay a loan advanced with interest at $6\frac{1}{4}$ per cent. per annum for any number of years from one to twenty.

16. The dates for payment of instalments shall usually be the dates fixed for payment of the land revenue.

17. Instalments may be suspended by order and at the discretion of the Collector on proof of failure of crops or other exceptional calamity. The Collector shall report the suspension through the Commissioner to the Board of Revenue, who shall pass such orders on the case as may seem proper.

18. The Collector shall make provision for the inspection from time to time of works undertaken under the Act. In all cases the work shall be inspected within one month after the expiration of the time within which completion was directed in the certificate.

19. If at any time it is proved to the satisfaction of the Collector that any part of the loan has been misapplied, he may, after recording in writing the grounds of his decision, and subject to the control of the superior revenue authorities, proceed to recover the whole amount of the loan with such interest as may have become due thereon.

20. When any portion of a loan made under these rules is found to be irrecoverable, a special report shall be made to the Board of Revenue.

21. The Board of Revenue shall regulate the forms of all returns, registers and accounts relating to loans under the Act.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 18 of these Conditions of Sale. The bids must advance by Rs. 2 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bona fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazepore factory for the year 1883-84, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazepore factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18. The public are hereby informed that the opium manufactured at the Patna factory in season 1883-84 includes about 4,500 chests of 76° consistence, and that the opium manufactured at the Ghazepore factory in the same season includes about 8,883 chests of 72° and 1,965 chests of 74° consistences. The higher consistences will be mentioned in the sale notifications of the months in which they will be sold.

19. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L.P.,

C. E. BUCKLAND,

Offg. Secretary.

Fort William, the 24th November 1884.

No. 3253B.

Notice is hereby given that the First Sale of Opium, the provision of 1883-85 and 1883-84, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday the 5th January 1885, at 11 A.M., and will comprise 4,166 chests, viz:—

NOTIFICATION.

The 2nd December 1884.—The following Notices to Mariners are published for general information:—

A. P. MACDONNELL,

Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS —(No. 65.)

NORTH INDIAN OCEAN—ARABIAN SEA.

MINIKOI—ISLAND.

Intended exhibition of Revolving Light.

THE Trinity House, London, has given notice, that early in the month of January 1885, it is intended to exhibit a light from a Lighthouse, now nearly completed, on the South-West part of Minikoi Island, between the Lakadivh and Maldivh groups.

The light will be a *white* light, revolving *every half-minute*, elevated 150 feet above high-water, and should be visible in clear weather from a distance of about 19 miles.

On a S. W. $\frac{1}{2}$ S. bearing the light will be obscured by cocoanut trees within a distance of about 11 miles; this obscuration will extend through an arc of 74° to the bearing of W. N. W., where the distance the light is obscured will decrease to about $1\frac{1}{2}$ miles.

The top of the Lighthouse, which is built of *black brick*, and the lantern, will be visible by day above the trees.

Position approximate, latitude $8^{\circ} 16' N.$, longitude $73^{\circ} 01' E.$

Further notice will be given on the exhibition of this light.

The bearings are magnetic.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, R.M.,

Port Officer of Calcutta.

GOVERNMENT OF BENGAL, GENERAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 66.)

INDIA—WEST COAST,

MALABAR.

CALICUT ROADSTEAD.

Buoy marking the Coote Reef.

THE Port Officer, Madras, announces that the red buoy marking the outer side of the Coote Reef, which had broken adrift, is now replaced to the westward of the Reef in $3\frac{1}{2}$ fathoms. From it the following bearings are taken:—

Connolly's hill	N. by E.
Calicut Lighthouse	N. E. $\frac{1}{2}$ N.
Large tree	E. by S. $\frac{1}{4}$ S.

NOTE.—Care should be taken, when passing the vicinity of this buoy, not to approach the coast under 5 fathoms, as there are numerous rocky patches and overfalls of foul ground inside of that depth.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, Captain, I.M.,

Port Officer of Calcutta.
